COUNTY'S FIRST FLYING MACHINE

History Was Made at the Inter-State Fair at Athens Yesterday Afternoon.

CURTISS BI-PLANE MADE SUCCESSFUL FLIGHT

Machine Soared Through Air For Over a Mile on First Flight, Then Started Again, Flying a Mile and Returning to Starting Point.

The first real flying machine to ever be exhibited in Bradford county startled a large crowd of people at the Inter-State fair at Athens Tuesday afternoon when Aviator Willard in one of the Glen Curtiss biplanes made two successful flights.

It was 5:30 o'clock when Williard took his machine in front of the grand stand, and a moment later went sailing through the air at a heighth of 40 feet. People gasped in wonderment, unable for the time being to realize that a human being was navigating the air with a craft that seemed anything but capable of doing so.

Then it had been reported that the flying machine engaged for the Inter-State fair was a fake and could not fly, but there was the proof when Williard perched on the machine went soaring away in perfect control of his craft.

Flew Over a Mile.

For over a mile on almost a straight line the bi-plane soared at a heighth of about 40 feet, and then as everything was not working to suit Aviator Willard, he brought the machine to the ground, returned to the starting point in front of the grand stand, and started away on another trip.

This time he went over a mile turned gracefully and sailed back, landing almost in the very spot from where he had started. This was a duplicate of the exhibition given by the Wrights, Curtiss, and other navigators of the air, winning for themselves renown and imperishable fame. People all over the civilized world have been reading about the flights of the air kings, but those at Athens yesterday in attendance at the fair had their first glimpse of a real flying machine, one which can successfully navigate the air.

It was intended by Willard to fly three miles each day, but owing to the hills in the vicinity of Athens making a big difference in the air currents he will content himself with the flight of a mile and return to the starting point, an exhibition which proves the wonders of the bi-plane beyond a doubt.

Will Fly Each Afternoon.

Every afternoon during the balance of the week while the fair is open, Williard will make a flight in the biplane, covering a course of not less than a mile. The exact hour of each flight cannot be announced as the wind has much to do with when the flight is made. Some time during each afternoon, a flight will be made, and it is safe to say that thousands of Bradford county people will not miss this the first opportunity of seeing a real flying machine navigating the air.

Peculiar Accident.

Mrs. John Edwards, of Scranton, suffered a peculiar injury, which may result fatally, on Saturday afternoon. While walking along the street with her husband, she was struck over the heart by a football, kicked by some boys, who were practising in a nearby field. She sank unconscious to the ground and was removed to her home, where a physician is in constant attendance.

Largest in the World.

Says the Athens News: W. H. Johns of Troy, will show the largest pure bred Van Homier Rambouillet ram in the world at the Inter-State fair. The animal weighs 300 pounds and has over thirty pounds of wool. This is the only pure bred Van Homier ram ever brought into Pennsylvania. Mr. Johns exhibits twelve sheep.

Business Change.

Daniel J. Kirwan has sold the old established Kirwan livery, boarding stable and hack business to J. Edward Kirwan, who took possession Sunday. Mr. Kirwan will be in the employ of the new proprietor in the capacity of driver.

Make Old Things New With Home Finishes.

Have you any worn out chairs? If so, get a small can of L. & M. Home Finish Varnish Stain and in 30 minutes make the chair as good as new. Full directions on each can.

Sold by Spalding Hardware Co., Towanda.

FRANCIS SULLIVAN AND PAUL HALE IN BIG DEAL.

Gentlemen Well Known in Towanda, Buy Real Estate in Minnesota.

A special dispatch from Brainerd, Minnesota, to the Duluth News Tribune under date of Sept. 11, contains the following information which is of interest to Towandians, as Francis Sullivan and Paul Hale, mentioned in the article, are well known in Towanda, the former being a son of Mr. and Mrs. John Sullivan of Second street, and the latter is a son of Judge Hale of Duluth, a native of Towanda:

"One of the best sales of Cow Wing county real estate for a long time was that made by John W. Bouck of Long Lake, of 120 acres in the southwest quarter of section six in that town. The price received was $9,000, or $75 per acre. The land was purchased by the Nakay Iron company, a corporation, with headquarters in Duluth, and of which Francis Sullivan is president and Sara L. McNulty is secretary. the Nokay Iron company, a corporadoing considerable drilling on the land in question and have apparently made a very good find. Mr. Sullivan president of the company is the same gentleman who has just taken options on a large amount of property in St. Mathias and Fort Ripley. R. F. Grant of Duluth, and Paul M. Hale of Deerwood, have been looking after the work in this part of the county and secured most of the options taken.

"There are rumors of heavy finds of ore on the Hildebrandt property in the south part of the city and also in various other holes close around Brainerd. While it is impossible to get anything like an authoritative statement of results it is almost certain that the ore being found around Brainerd is equal to the best being discovered in any part of the Cuyuna range."

W. C. T. U. MEETNG.

Interesting Session Held Saturday Afternoon, Sept. 18.

The meeting of the Womens Christian Temperance Union on Saturday afternoon at the P. O. S. of A. hall took the form of a business meeting in closing the accounts of the year; electing a delegate to the state convention which meets in Philadelphia on October 7—12; planning to raise funds for the drinking fountain which is well under way. The treasurer's report showed a balance in the treasury of $61.52 besides $120 pledged that afternoon for the fountain.

Mrs. Moore, the new president, being absent, Mrs. Barcus, the retiring president took the chair and was completely taken by surprise when Mrs. J. M. Rahm, in a few well chosen words in behalf of the union, presented her with a handsome umbrella, but found herself equal to the occasion and responded in a very feeling manner tending her thanks to the union for the gift and the kindly feeling and co-operation she had received while president, and urging them to be as loyal to the new president as they had been to her. The delegates elected to state convention were Mrs. S. C. Moore, and Miss Edna Smiley, alternate.

Ladies Aid Meeting.

The Ladies' Aid society of the Presbyterian church of Bernice and Mildred, spent last Thursday with Mrs. Hattie Pflaum of Monroeton. They all brought baskets heavily laden with everything good. Although the day was dark and cloudy the tables were spread on the lawn and at noon a most delicious dinner was served. Those who were present were Miss Mae Breiger of Neehan Junction, Miss., Mrs. Wm. J. Johnston, Mrs. Abe Gore, Mrs. David Miller, Mrs. Lester Green of Bernice, Mrs. E. Baumgartner, Mrs. S. Dieffenbauch, Mrs. David Spence, Mrs. James Ramsey, Mrs. Barkley Duggan, Mrs. Wm. Cook, Mrs. Chas. Cook, Mrs. George Drescoll, Mrs. Margaret Cook, of Mildred. Mrs. Pflaum before leaving Bernice was a member of that society for over eight years. The ladies before leaving for home all joined in singing "God be with you till we meet again," happier for having met once more and hoping for many more such pleasant meetings.

Bordens Raise Prices.

The Borden Condensed Milk company have made contracts with the farmers for their milk for the next six months. The prices are per 100 lbs, Oct., $1.80; Nov., $1.90; Dec. $1.95; Jan., $1.95; Feb., $1.90, and March, $1.70. These prices are the highest that has ever been paid for milk delivered at the Ulster station of the Borden company and the farmers are much pleased. The price figures over four cents per quart for the six months.

Case Continued.

The case of Pearl Yontz, who was arrested a few days ago by T. B. Shaffer of Sayre, at LeRaysville, has been continued. Yontz, who has a large number of aliases, was accused of stealing tools belonging to employees of the Lehigh, taking them from the Sayre shop at night.

REUBEN HEEMAN ADMITS STEALING SHOES FROM CAR.

Now in Towanda Jail and Very Anxious For Sentence to Be Pronounced

Reuben Heeman, well known in local police and court circles, is in the county jail on Pine street, awaiting and anxious for Judge Fanning to send him to the penitentiary. Heeman has pleaded guilty to burglary in robbing a freight car in the Towanda yards, stealing a number of pairs of shoes, and taking them to Geneva where he was arrested while offering them for sale.

Heeman was brought back to Towanda by Lehigh Detective Booth, and placed in the county jail Wednesday night. He waived all extradition rights and gladly accompanied the omcer from Geneva to Towanda Thurs day morning he was arraigned before 'Squire Meredith, and pleaded guilty to the charge of burgiary, admitting that on the night of Sept. 4 or 5, he entered a freight car in the upper end of the Towanda yards and stole a number of pairs of shoes, which he hid for a time, and later took them to Geneva, where he tried to sell them, landing in the clutches of the law. Lehigh Detective Douglass and Chief Miller worked up the case in Towanda while Detective Booth handled the Geneva end.

He says that he expects two or three years in the penitentiary for the job, and all he wants is for the judge to hear his plea of guilty and then pronounce sentence, so can start on his term behind prison walls.

It will not be Heeman's first stay behind the bars, as he has served time in both New York state and Pennsylvania prisons, besides being in the reformatory.

May Get Thirty Years.

Heeman would not be so anxious to be sentenced if he was aware of the new law in Pennsylvania which gives Judge Fanning the power to sentence him to 30 years, or the rest of his life in the Eastern penitentiary. This law which was enacted by the last legislature, provides:

That when a person shall have twice been convicted, sentenced and imprisoned in a penitentiary for a term of not less than one year, for any crime committed in this State or elsewhere within the limits of the United States, the Court shall sentence said person to a maximum of 30 years; and provided further. That no person sentenced for an indeterminate term shall be entitled to any benefits under the act, entitled. "An act providing for the commutation of sentences for good behavior of convicts in prisons, penitentiaries, workhouses and county jails in this State."

GOVERNOR ATTACHES NAME TO WATER COMPANY CHARTERS

Last Obstacle in Way of Towanda Dam Project Removed.

Governor Stuart has attached his name to the charters of the water companies which will be the foundation of the project to build a power dam in the Susuehanna river near Towanda. There are seven charters for as many companies, and the Governor made them legal when he attached his name to them on Friday, notification of which was received by Lilley & Wilson Monday.

This removes the last obstacle in the way of the great enterprise which will make Towanda boom as never before. The delay of the governor in signing the charters after they had been approved by the secretary of state and the state water commission, caused considerable uneasiness among certain people in Towanda, but there was no occasion for alarm.

Governor Stuart was away from Harrisburg for several days, and upon his return he made investigation of the men behind the enterprise, and satisfied himself that they were reliable and sincere, and that it was not a scheme to get control of a valuable water power site to sell to some one else, but a plan to develop the wonderful resources of the Susuehanna river, and to improve the upper Susuehanna valley. The long wait for the Governor's approval, and the close crutiny of the entire proceedings by the state authorities cannot but convince one that it is no easy matter to secure concessions from the State of Pennsylvania.

Sayre Business Change.

W. S. Wright sold his grocery business in Sayre to C. T. Lilley, who took possession at once and the former proprietor expects to leave soon for Colorado. Mr. Lilley conducted a general merchandise store at Dushore for 19 years. Two years ago he retired from business and took up his residence in Sayre.

Hon. A. T. Searle Gets Judgship.

Hon. A. T. Searle has been appointed president judge of Wayne county to fill the vacancy caused by the death of Judge Purdy. Mr. Searle has been serving as assistant United States attorney for the middle district.

NATION MOURNS LOSS OF JOHNSON

Messages of Condolence Received From Many States.

PRESIDENT TAFT GRIEVED.

Had Been Hopeful of Successful Outcome of Brave Fight For Life Made by Minnesota Governor—A. O. Eberhart, Republican Lieutenant Governor, Becomes Chief Executive of North Star State.

Rochester, Minn., Sept. 21.—With all outward signs of grief testifying to a deep sense of bereavement, Minnesota is mourning today the loss of her beloved governor, John A. Johnson, who died at 3:35 o'clock Tuesday morning of this week.

Evidences that Minnesota is not alone in her grief are not lacking. From every part of the United States have come messages of sympathy to Mrs. Johnson testifying to the esteem which the dead man, who had literally risen from the depths, had earned.

President Taft's message reached Mrs. Johnson early. He had taken a deep interest in the governor's illness and had been hopeful of a favorable outcome. He expressed his belief that the nation had suffered a severe loss by the death of Governor Johnson.

The flash of the telegraph instrument announcing the death of Governor Johnson cast a gloom all over the state. He was perhaps the most popular executive the state has ever had. He was regarded as a political giant and expected to be the Democratic candidate for the presidency in 1912.

Last Words to Mrs. Johnson.

Before the end came Governor Johnson seemed to wish for death, for once he said: "My, the time drags slowly! I am so uncomfortable." The governor lapsed into unconsciousness about two hours before his death.

Toward the end he revived and raised himself several times to pat his wife on the cheek. His last words were:

"Well, Nora, I guess I'm going. We have made a brave fight."

When the governor had breathed his last Mrs. Johnson, who had been in almost hourly attendance at his bedside and who had borne up bravely, collapsed. She is now under medical care.

Governor Johnson's life hung continually in the balance until the end came. So frequently did his condition change, for better and then for worse, that his physicians, ever hopeful, but none too optimistic, were able to say at no time since the operation was performed that he had more than an even chance.

Exhaustion and Heart Failure.

Dr. Mayo stated there were no traces of blood poisoning and that the immediate causes of death were exhaustion and heart failure.

The physician also said that his patient's wonderful resistance indicated an almost total abstinence from dissipation in any form.

"His vitality was almost that of a child," said the doctor, "and this was the greatest factor in prolonging his life."

At the deathbed, besides Mrs. Johnson, were Miss Margaret Sullivan, Drs. Mayo and McNavin, Frank A. Day, the governor's private secretary; Fred B. Lynch, Democratic national committeeman, and two nurses.

A. O. Eberhart, former lieutenant governor of Minnesota, has taken the oath of office as successor to Governor Johnson. He is a Republican.

PRESIDENT IN DENVER.

Colorado City Outdoes Itself In Welcome to Its Visitor.

Denver, Sept. 21.—This city had President Taft all to itself for almost twenty-four hours and it took full advantage of that fact. He will have no cause to doubt the heartiness of Denver's welcome if the program prepared for him by the city leaders is taken into evidence.

Although somewhat saddened by the death of Governor Johnson of Minnesota, with whom Mr. Taft recently exchanged friendly messages, the president did not permit his feelings to enter into his enjoyment of the good things prepared for him by Denver.

President Taft's next stop is Colorado Springs. After visiting that city he will go to Pueblo.

Judge Shoemaker's Apples.

Says the Waverly correspondent of the Sayre Times-Record: "Judge Shoemaker has an apple tree that seemingly never knew of the drouth that spoiled the crop in this section. The tree bears strawberry apples and they are as large as a baseball, as smooth as satin and flavored well, their flavor reminds you of the fact that when Eve was to be tempted an apple was the fruit chosen.

BRADFORD COUNTY HUNTERS GETTING READY FOR SEASON.

Rabbit Season Does Not Open This Year Until Nov. 1—Other Seasons

By direction of the legislature, Dr. Joseph Kalbfus, secretary of the game commission, has issued the new digest of the game, fish and forestry laws for 1909. Following is a table of the animals and birds declared to be game of Pennsylvania, together with the period when they may be killed, the number, etc.

Bear, unlimited, Oct. 1 to Jan. 1.

Black birds, all kinds, unlimited, Sept. 1 to Jan. 1.

Doves, mourning or turtle, unlimited, Sept. 1 to Jan. 1.

Deer, male, with visible horns, one each season, Nov. 15 to Dec. 1.

English, Mongolian or Chinese pheasant, ten in one day, twenty in one week and fifty in one season, Oct. 15 to Dec. 1.

Grouse, ruffled, commonly called the pheasant, five in one day, twenty in one week, and fifty in one season, Oct. 15 to Dec. 1.

Hare or rabbit, ten in one day, Nov. 1 to Dec. 15.

Quail, commonly called Virginia partridge, ten in one day, forty in one week and seventy-five in one season, Oct. 15 to Nov. 15.

Hungarian quail, closed for two years.

Webfooted wild fowls of all kinds, unlimited, Sept. 1 to April 10.

Woodcock, ten in one day, twenty in one week and fifty in one season, Oct. 1 to Dec. 1.

Wild turkey, one in a day and two in one season, Oct. 15 to Nov. 15.

Squirrel, fox, black or gray, six of combined kinds in one day, Oct. 15 to Dec. 1.

Shore birds, unlimited, Sept. 1 to Jan. 1.

Snipe, Jack or Wilson, unlimited, Sept. 1 to May 1.

Plover, unlimited, July 15 to Dec. 1.

In addition Secretary Kalbfus says in his statement.

Remember that game killed in this Commonwealth may be had in possession only during the open season for such game and for thirty days thereafter. This is the law. If hunters are not disposed to abide by this provisions they need not take the game.

No deer, ruffled grouse, commonly called pheasant, or quail, commonly called Virginia partridge, killed within the commonwealth can be bought or sold at any time. No ruffled grouse, commonly called pheasant, killed outside the commonwealth can be sold within the commonwealth, excepting during the open season for the birds in the commonwealth and for thirty days thereafter. No wild turkey or woodcock killed either within or without the commonwealth can be bought or sold at any time. All other game can be bought and sold in season.

No game of any kind can be legally carried or in any manner removed out of the State except those who have secured a non resident's license.

The starling, the English sparrow, kingfisher, crow, raven, eagle, buzzard, crane, heron, bittern, Cooper's hawk, sharp shinned hawk, duck hawk, pigeon hawk, great horned owl, barred owl, red or pine squirrel, coon, possum, woodchuck or ground hog, fox, wildcat, weasel, mink and skunk are not protected, and may be killed at any time.

The provisions for the payment of a reward or bounty for the killing of noxious and destructive animals are as follows:

For each wild cat the sum of $4, for each fox the sum of $2, for each weasel or mink the sum of $1.

The person who kills one of the above named animals may take the slain animal or entire pelt to any magistrate or justice of the peace in the county and make affidavit that he killed the same.

He will thereupon receive compensation as provided above, this being paid in the long run from an appropriation made by the State.

Lehigh Engineer Killed.

The engineer operating the throttle on Westbound passenger train No. 1, was killed in a mysterious manner near Mauch Chunk Sunday. The train ran by a signal without slowing down or stopping, and the fireman went over to the engineer's side of the cab to see what was wrong. The engineer was not to be found, and the fireman stopped the train, and backed down the track for over a mile without finding any trace of the engineer. A few minutes later, some one noticed an object on the back of the water tank, and it proved to be the dead body of the engineer. The top of his head was gone. How he was killed, is a mystery. The train was an hour late in reaching Towanda as a result of the accident.

Injured in a Runaway.

Miss Frances Parsons, daughter of Editor and Mrs. E. Ashmun Parsons, was painfully injured in a runaawy accident near the High school building Monday morning. She was thrown from the carriage, and suffered a badly bruised hip and shoulder. The carriage was damaged, but the horse escaped uninjured.

WILLIAM FLEMING CLAIMS TO HAVE BEEN ROBBED.

Says He Was Relieved of His Money in a Boarding House at Laquin.

William Fleming of Grover, a well known and successful raiser of ginseng, was robbed of over $150 while sleeping in a boarding house at Laquin the other night.

Mr. Fleming received word from a party at Laquin stating that they had a bed of ginseng which they desired to sell quick as they were going away, and for him to come prepared to buy if in the market. Mr. Fleming took about $150 and went to Laquin, but thought the price was too high for the ginseng and no bargain was made.

Mr. Fleming made an offer, and the man told him to call the next morning, and by that time he would have considered his price, and they might make a deal. Not wishing to go home and then make another trip to Laquin, Mr. Fleming went to a boarding house and secured lodging for the night.

About 1 o'clock in the morning, he awoke, but was unable to rise, being in a sort of stupor. After a short time he was able to sit up, and while seated on the edge of the bed noticed that the door to his room which had been securely locked before he retired was standing open. His trousers containing his money, which he had folded and carefully placed under his pillow, were gone, as he learned on putting his hand under the pillow. Lighting the lamp. Mr. Fleming called the man of the house, and he in turn alarmed the boarders.

A search of the house was started, and in the doorway of the room across the hall from the room occupied by Mr. Fleming his trousers were found but the money was gone. Securing the services of a constable Mr. Fleming caused another search of the house to be made, but no trace of the money was obtained.

Aspirants For Office.

There are six aspirants to the office of assistant United States district attorney, left vacant by the appointment of the former incumbent A. T. Searle, to succeed the late Judge Purdy, president judge of Wayne county. The men who are mentioned for the appointment are: Hon. Mial E. Lilley of Towanda; District Attorney Abram Salsburg, of Luzerne county, whose term expires soon, Ralph M. Rymer, George M. Watson, Milton W. Lowry and C. A. VanWormer, of Scranton.

Reward For Porcupines.

The owner of a famous tract of virgin hemlock near Laporte, has placed a reward of $1 each on the pelts or carcasses of porcupines, which are seriously injuring and in some cases killing the hemlock trees by gnawing and peeling the bark from the limbs in search of ants, which constitutes one of these queer animals' principal articles of food. The porcupine is usually classed as inoffensive, but this seems to be a bloch on his escutcheon.

On the first day of June she broke her arm and had been confined to her home ever since. She leaves to mourn her death a husband and five children, two sons and three daughters who are: G. M. Barnes of Durrell, W. K. Barnes of Macedonia, Mrs. Ed. Ellis of Liberty Corners, Mrs. George Trumbull of Durrell and Mrs. L. R. Mingos of Ellis Hill. She was the mother of eight children, three whom she lost just in the bloom of life which was a great shock to her. Had she lived until the 26th of November she would have been 70 years of age. She also leaves two sisters, one of Rush, Mrs. George R. Barnes and one of Elmira, Mrs. Wm. Detrich and one brother Frank McNeal of Durrell. She was a lady with many friends, and a mother and wife who will be greatly missed in the family circle. Funeral was held Wednesday at the home at two o'clock.

Mrs. Mary Ann Lanterman.

Says the Troy Gazette-Register: "Mrs. Mary Ann Lanterman died Monday morning, Sept. 13th, at the home of her grandson, Daniel Utter, on the L. J. Ballard farm, aged 83 years 9 months and 5 days. Mrs. Lanterman was the widow of John Lanterman who died in Michigan about ten years ago. She was a native of Sussex county, N. J., and in early life united with the Baptist church. Five children survive, Daniel of Elmira Heights; Frank of Covington; Joseph of Saginaw City, Mich.; Mrs. Laura Utter of West Burlington, and Mrs. Cornelia Beardslee of Owego, N. Y. The funeral was held Wednesday afternoon, from her grandson's home, the Rev. Walter Skellett officiating. Interment was in the Hilton cemetery."

Mrs. Foster Milliken.

Mrs. Foster Milliken of New York, only sister of Mrs. Rodney A. Mercur of Towanda, died Friday morning at Lake Placid, N. Y. Heart failure was the cause of death. She was born in Towanda, a daughter of the late Mr. and Mrs. James M. Ward, and grew to womanhood here. She had many friends in Towanda and vicinity who will learn of her demise with sincere regret. Deceased is survived by her husband, one son, Foster Milliken, Jr., and one daughter, Miss Ruth Milliken; two brothers, E. Overton Ward of Baltimore, and Thomas C. Ward of Evanston, Illinois.

S. B. Mutchler.

S. B. Mutchler the senior member of the firm of Mutchler & Sons, who did the concrete work on the Lehigh shops at Sayre and constructed the concrete piers for the new Lehigh bridge at upper Towanda died at his home at Phillipsburg, N. J., on Tuesday last from Bright's disease. While day last from Bright's disease. While the work at the shops was going on he lived in Sayre for a year or more and was well known by many people in this section.

Mrs. Emma Orcutt.

Mrs. Emma Orcutt died Tuesday afternoon, Sept. 14 at the home of her son, Frank Orcutt, in the town of Newfield, N. Y., aged eighty-three years. The deceased is survived by four sons; John of Rathbone, William of Linderley, Fred of Troy, and Frank of Newfield, a sister, Mrs. D. C. Cady of Buffalo and one brother, Merritt Barnes of Millerton; also six grandchildren.

G. L. Houser.

George L. Houser for many years Lehigh Valley forwarding agent at Coxton and for seven years general forwarding agent at Bethlehem, died Monday while on a Jersey Central train. He had recently made his home in Scranton. Mr. Houser commenced work when 18 years of age as manifest clerk for the Lehigh in the general offices at Mauch Chunk.

Mrs. Frank Fedora.

Mrs. Frank Fedora died at her home in Athens at 2 o'clock Monday morning, after suffering a long time from cancer, at the age of 45 years. She is survived by her husband and three daughters, Mrs. Mary E. Judge and Mrs. Etta B. Miles of Union, N. Y., Ada of Athens, and three sons, Charles, William and Frederick, also of Athens.

Mrs. Irene Albro.

The body of the late Mrs. Irene Albro, an old resident of Athens, who died Wednesday Sept 15, at the home of her daughter in Highland, will be taken to Athens this afternoon on train No. 1 for interment in Tioga Point cemetery.

Charles V. Grohs.

Died shortly after 4 o'clock on his 47th birthday, Wednesday, Sept. 15, at the home of his sister, Mrs. F. H. Hoffman, in Troy, Charles Veile Grohs. Funeral services will be held on Saturday afternoon, with interment in Glenwood cemetery.

Death of a Baby.

Mr. and Mrs. Earl L. Foster mourn the death of their infant daughter, who died Sept. 17, at the family home at the corner of State street and Western avenue, aged three months.

STATE VETERINARIAN PEARSON DIED MONDAY.

One of the Foremost Veterinarians in America is No More.

Dr. Leonard Pearson, State veterinarian of Pennsylvania, died Mon-Monday for Altus, Pa., where they he was sojourning in the hopes to recuperate after a long illness.

Dr. Pearson was 41 years of age, and had the reputation of being one of the most skilled veterinarians in America. Besides his work as State Veterinarian, he occupied the post of Dean of the Veterinary Department of the University of Pennsylvania.

He was a powerful man, physically, until a year ago, when he concentrated all his energies on stamping out the foot and mouth disease which was epidemic among cattle in many sections of Pennsylvania. For days and weeks he worked in different parts of the state, securing no sleep but little naps on trains, and at last nature gave way under the strain. Ill and weak, he was resting at his home in Philadelphia with his mother, when one night they were overcome with gas, which nearly blotted out his life. Sufficiently recovered he started on a trip in the hopes of regaining his health, only to pass away after reaching Newfoundland.

Dr. Pearson has visited Bradford county several times, and not a few people in this section who knew and admired him, will regret to learn that he is no more. His place at the head of the Live Stock Sanitary Board of Pennsylvania will be difficult to fill.

WONDERFUL ROCK GARDEN.

Englishman Has a Three Acre Reproduction of the Matterhorn.

The largest rock garden in England is that of Sir Frank Crisp at Friar Park, Henley. It is a faithful reproduction of the Matterhorn on a scale of about three acres. Seven thousand tons of limestone were brought from Yorkshire to make it.

The snow capped peak is represented by quartz. Below it are thousands upon thousands of alpine flowers growing in pockets between the rocks and filling every chink in the trails that ascend the mountain. There must be 200 different species in bloom at once.

At the base of the mountain, says Country Life in America, is a miniature Swiss chalet, where one may sit and enjoy the scene, comparing all the main features with a little bronze model of the Matternhorn which Sir Frank had made for the entertainment of his guests. A brook courses down the mountain side, and just before it reaches the chalet it forms a pretty cascade and then spreads out at your feet into a miniature lake decorated with pygmy water lilies and richly margined with pinks, primroses, gentians and other alpine flowers.

A Good Laugh Is Good For the Health.

Look at the laugh in whatsoever light you will, whether you see it as the deliverer from the bondage to outgrown notions; a schoolmaster with the sharp switch of ridicule to teach us manners; an apostle of democracy, proclaiming that we are all of the same clay, made of it and to return to it, but every lump of it holding some sparkle of the divine fire, and woe betide the man that tries to make us think that he is of different stuff! Look at the laugh, I say, in any light you choose, and you will see that it is not so much the downfall and confusion of the laughed at that makes us happy, that joggles our waistbands and sends the ha-ha spouting out, that pumps the blood along the sluggish veins, massaging the interior works and replacing the shopworn stock of air with a new consignment, as it is the sudden, sharp, intense realization of our personal well being.—Eugene Wood in Success Magazine.

Harlem In New York.

In an early charter of what is now New York occurs the name of Lancaster. That is what Harlem used to be called. It comprised the territory on Manhattan Island north of a line drawn from the foot of East Seventy-fourth street to the foot of Manhattan street. The real Harlem village was a settlement collected within a radius of a quarter of a mile from One Hundred and Twenty-fourth street and Third avenue. Today the name Harlem is applied to the whole territory north of One Hundred and Tenth street, east and west. After the name Lancaster was eliminated the village was called Nieuw Haarlaem.—New York Press.

Had All the Others.

"Were you ever in love?" asked the sweet young thing.

"No," replied the bachelor, "but you can't mention any other fashionable disease that I haven't had."—Detroit Free Press.

Wanted Harmony.

Soda Fountain Attendant—What flavor, please? Silly Young Thing—Have you anything in pink to match this gown?—Harper's Weekly.

It Costs Money to Paint.

It costs more if you don't. Your house wears out if not painted. Then it costs money to repair it and money to paint it. It don't cost much money to paint with the L. & M. Paint, because 4 gallons of the L. & M. and 3 gallons of Linseed Oil makes 7 gallons of ready-for-use paint at only $1.20 per gallon. Thirty-five years use in every part of the United States has proven it. Sold by Spanlding Hardware Co., Towanda, and Dewey Bros., Gillette.

TROY'S "LOADED" TEAM THUMPED THE TOWANDIANS.

Locals Made Tri-Staters Go Some Until Eighth Innings.

The Towanda baseball team was thumped good and proper by Troy's "loaded" team at the Troy fair Thursday afternoon, the score being 10—2. The locals, the same boys with one or two exceptions who have been representing the City of Promise all season went to Troy Thursday and were not the least surprised when they found that it was not the Troy team they were to play but a team of real leaguers representing the half shire town.

It takes more than leaguers to worry the Towandians, and they went into the fray with just as much confidence as if it was the ordinary Troy team, which they have walloped twice on the East side grounds this season.

For eight fast innings the Towandians made the "imported" lads go some, and there was not a moment up until that time when they did not have a chance to win.

At the end of the seventh inning the score was 4—0 in favor of Troy. In Towanda's half of the seventh they fell on the ball and before three men had been retired, two of the county seaters had crossed the pan, making the score 4—2.

At this point the locals became imbued with the idea that they could down the leaguers, and they started in to do something. Troy was retired in order in the seventh, and Towanda failed to score, and also in the first half of the eighth.

Troy came to bat in the last half of the eighth, and after two men had been retired, Herb Jackson, who had been pitching a magnificient game for Towanda, weakened a little, and a couple of hits, coupled with some errors let in six runs, making the score 10—2.

Jackson pitched a great game for Towanda, up to the eighth and proved that he is still in the game as a flinger of the top notch. He was in the TriState league for a time, but for the past few months has been out of baseball. Bazzett was behind the bat, S. Putnam 1b, V. Putnam 2b, Corbett ss, Rockwell 3b, Cranmer, Linderman and Hughes outfielders.

That Troy had a great team cannot be doubted when in their lineup was Thierie, Northrup, Lister, Agnew, O'Hara, Tri-State league players, Strait of the Texas league, and others of equal ability. But two of Troy's regular players were in the lineup, Wood and Sherman.

"Jake" Northrup was on the rubber for Troy, and only in the sixth inning did Towanda get to him for run producing hits. He pitched an excellent game, and to him the locals bow in submission, willing to acknowledge that his curves were cloutless.

Troy and Towanda have played four games this season, each team winning two, and Thursday's contest was the rubber. Troy knew that their regular team had only one chance in a hundred of defeating the regular Towanda team and thinking that the county seat was going to "load" as they did once upon a time to their sorrow, they prepared a reception which was to be something like the one on the Troy fair grounds some years ago when Towanda sent the Willkes-Barre New York state league team over to "clean up" for the Trojans, but instead were trimmed nicely, financially and several other ways.

The reception was there all right, and as the word had gone broadcast that there was to be a battle of big leaguers representing the two towns, a great crowd, one of the largest ever on the Troy fair grounds, assembled and while they found only the regular Towanda team with one or two exceptions, they were treated to real baseball up until the eighth inning, when the six runs were marked up for Troy.

Towanda was defeated but not disgraced, as the team which represented Troy yesterday was assembled for that very purpose, and they "delivered the goods."

ULSTER WALLOPED THE WYALUSING AGGREGATION.

Chalmers and Philbin of Scranton, Could Not Prevent Slaughter.

The Ulster baseball team Thursday at the Wyalusing fair walloped the Wyalusing team by the score of 13—8 in a swatfest pure and simple.

The Wyalusing team had Chalmers and Philbin, the crack battery of the Scranton New York state league team, but the Ulster boys had no trouble in connecting with the offerings of the professional tossist. Kramer of Athens, did the pitching for Ulster, Jess Madigan of Sayre, was behind the bat, both doing good work. Madigan proved himself a great liker of Chalmers' offerings, having three two baggers, and two singles to his credit. Davidson was next in the line of Ulster's batting stars, he having four safe hits and one free ride to first. Ulster made a total of 19 hits.

Devlin of Towanda, played a great game at second base for Wyalusing, a great participating in two double participating in two double plays and having a safe hit to his credit.

A large crowd witnessed the contest.

McCabe a Great Swatter.

Art McCabe, formerly of Monroeton and Towanda, who played with the New Britain team the past season, is the leading batsman of the Connecticut League, as he was a year ago, and he thereby breaks a record for this league by leading in the sticking department two seasons in succession. Last year his average was .320, but this season it is up to .368, a splendid figure, which shows notable batting. McCabe performed notably during the year. He played in 120 games and failed to hit safely in but seventeen. He made two hits in each of forty-two games, three hits in each of forty games. He once hit safely in thirty-two straight games, then, again for fifteen straight, and on another occasion for fourteen straight, and on still another for twelve straight.

Max Cranmer Makes Good.

Max Cranmer of Sheshequin, who pitched for the Sayre shop team last season, and who has been pitching great ball for the Towanda team this season, on Saturday pitched for the Elmira New York state league team, defeating Binghamton 9—2. Of his work, the Elmira Advertiser says: "The Colonels closed the State league season in Binghamton on Saturday by splitting even with the Bings, Cranmer, a new recruit from Pennsylvania, winning his game while Cy Bowen lost his. The first game was very one-sided, the Colonels hitting Randolph hard while Cranmer allowed but two hits, and two of these came in the first inning and aided by McMahon's error were responsible for Bingo's two runs. Cranmer tightened up thereafter and pitched high-class ball. "Cranmer will probably sign with the Elmira team for next season.

INTEMPERATE TEMPERANCE.

Wellsboro Agitator Discusses Action of Bradford County W. C. T. U.

In a recent issue of the Wellsboro Agitator, the following editorial of interest to the people of Bradford county appeared:

"The official term of Hon. Adelbert C. Fanning, President Judge of Bradford county expires in January, 1911. It is understood that he will be a candidate for renomination, and it is reported that he will have some opposition. Any person who is learned in the law and is ambitious for judicial honors may enter the contest for the nomination and the race for election. There have been some disgraceful scrambles in this state for judgships. We hope to hear no such reports from Bradford county when the politicians become active in the coming campaign.

"It seems to us that the action of the W. T. C. U. convention in Bradford county last week in demanding a "no license judge" was very unwise. And it appears to be an unjust slap at Judge Fanning, though his record is that of an honorable and faithful judge, administering the law with the greatest fidelity and ability. But the zealous and intemperate temperance workers in Bradford county take the position that they expect a Judge to make laws to suit them personally—not to interpret and administer them. They placed themselves on record in this resolution: "Resolved, that we use our influence and give all the help possible to secure the election of a judge pledged to grant no license, believing that such a man should be in Bradford county."

"If that county should, perchance, get that kind of a judge he will not be fit for the office. He will be a bigot and lacking in the essential ualifications for a pudicial position. We hope for the sake of Bradford county and the reputafion of the judiciary of the Northern Tier that no such person comes to preside over the courts in that county while the liquor laws of this state remain what they are. * * * * *

"The Brooks High License law is an act "to regulate and restrain the sale of liquors." The judge is instructed to determine by evidence the question of necessity for the license. The Supreme Court has said that a judge may exercise his discretion in granting or refusing licenses. But it also said; "To refuse a license because, in the mind of the judge there is a belief that licenses should not be granted at all as a matter of policy, is to make law, not administer it."

"We have no fault to find with the W. C. T. U. in Bradford county while they work for the temperance cause through securing legislators pledged to work for local option or for absolute prohibition. But when they want a judge who may think himself above the law or one who may become hamstrung through their political support, it is time for someone who has left a grain of common sense to enter a protest. Their position is ridiculous. The people of Bradford county are too intelligent to indorse such a resolution as is guoted above."

BETTER OR WORSE BINDING.

Marriage Vow Not to Be Severed for Latter Alternative.

The application of Mrs. Eva Yeager for a divorce from her husband, Adam Yeager, was sharply turned down in Court at Wilkes-Barre by Judge Fuller, who said:

"The applicant charged her husband with being intoxicated and that she was compelled to take off his shoes while he was in that condition. She stood this for a period of four months and then left her husband. She now asks for a divorce. It is refused, on the ground that, objectionable and disgusting as was her husband's conduct, she should have given him longer trial.

"When she married him it was 'for better or worse; she knew that, and the fact that she got the worst end of the bargain does not justify her coming into Court asking for a separation. She should bear with her husband until such time as it would appear that reformation was hopeless."

Judge Fuller has taken a firm stand on the divorce question, and will grant no separation unless the evidence is very strong to meet the legal requirements.

MARRIAGE RECORD

Streamer—Morgan.

Miss Ethel M. Morgan, daughter of Mrs. D. S. Morgan, and Louis Milton Streamer were married Wednesday evening, Sept. 8, in the Wilson Memorial M. E. church at Washington, D. C., by the Rev. Dr. McLean, the pastor. The ceremony was attended by a large number of friends and relatives of the two families. Clusters of asters combined with goldenrod and palms formed an effective decoration. The bride wore a handsome gown of white messaline satin, made empire, with pearl trimming. She wore a tulle veil and orange blossoms and carried a shower boquet of bride's roses and lillies of the valley. H. Mercur Allen, cousin of the bride, gave her in marriage. She was attended by a maid of honor, Miss Loretta Barnes, who wore a gown of violet satin and carried white asters. The bridesmaids, Miss Emilie Storms and Miss Lulu Krey, wore violet satin gowns of a paler shade. They were made directoire, trimmed with lace. They also carried white asters. Antonio Michau was the best man and the ushers were Charles Pennington, Frank Teachum, Harold Allen and William McGuire. The wedding was followed by a reception and supper at the home of Mrs. Frank Bell, 746 Twelfth street southeast. The house was decorated with palms, roses and goldenrod. Later in the evening Mr. and Mrs. Streamer left Washington for a wedding trip which will include visits to Philadelphia, Atlantic City, New York and Towanda, Pa., Mrs. Streamer traveled in a suit of wistaria pongee with hat to match. Upon their return Mr. and Mrs. Streamer will be at home at Brentwood, Md.—Washington, D. C., Daily Post.

The bride is a neice of Mr. and Mrs. C. H. Allen of Towanda, where she has frequently visited. She is a native of Waverly.

Wedding Anniversary.

Wednesday, Sept. 8, 1909, will be looked back upon by Mr. and Mrs. Samuel F. Williams of Jackson Valley, Susquehanna counuty, as one of the brightest days in the 50 years of their wedded life. It was the day on which they celebrated their fiftieth wedding anniversary. The day was an ideal one and nature seemed to be at her best to make the occasion an enjoyable one. There were 85 present, mostly relatives, and a few friends who were guests at their wedding 50 years ago. The home of their youngest son, David Samuel Williams, which is the old homestead, and where Mr. and Mrs. Williams spent the greater part of their married life, was, for reasons that are self evident, chosen as the place of meeting. Praise is due the ladies for the artistic way in which the home was so beautifully decorated for the occasion. The bride of 50 years was beautifully attired in a silver grey silk dress with Duchess lace collar, and the groom, feeling as young as a lad of 19 yas attired in black. Up to the noon hour the time was spent in visiting and in extending congratulations to Mr. and Mrs. Williams, after which all were ushered to the tables and a fine dinner was served. Samuel L. Williams is well known to a great number in both Bradford and Susquehanna counties, having honorably served the latter in the capacity of county treasurer for one term. He has always been interested in church life and has always been the heaviest contributor for home and foreign work in the church at Neath. The two most sacred places to him are the church and the home. He is the minister's friend. To Mr. and Mrs. Williams were born three sons, John A. Williams, Frank Williams and Samuel L. Williams, all of them married and located in the vicinity where they spent their boyhood days. They are all prosperous farmers. The sons have been blessed with 12 children, and Mr. and Mrs. Samuel L. Williams pride themselves in their grandchildren. Thanks are due Omer Dimon for entertaining the company with his graphophone. The 85 guests, who were present in this anniversary wish that the remaining years of Mr. and Mrs. Williams' life be spent under the Palm tree. May

Flowers laugh before them in their beds,
And fragrance in their footing tread."

Warner—Waterman.

A quiet wedding occurred at 8 o'clock Wednesday evening, Sept. 15, 1909, at the home of Mr. and Mrs. C. C. Reeve at Herrickville when their sister, Miss Eugenia Waterman was united in marriage to Clyde E. Warner of LeRaysville, by the Rev. W. H. Stang of Camptown. After congratulations all retired to the dining room to enjoy a bounteous supper. The bride wore a princess gown of blue cashmere trimmed with white The parlor and dining room were tastefully decorated with ferns and flowers, the color scheme being green and white. They received several handsome and useful presents. Only the immediate relatives were present. The bride and groom left for their homes at LeRaysville where they will now reside. Mr. and Mrs. Warner are highly estimable young people and have a host of friends who unite in wishing them a life of prosperity and happiness.

York—Hoover.

Fred York of Wysox, and Miss Cora Hoover of Sayre, were married Wednesday afternoon, Sept. 15,, at the home of the bride in Sayre. The ceremony was performed by Rev. H. M. Pease of the First Baptist church of Sayre.

Canfield—Bullock.

John W. Canfield of Sayre, and Miss Leora Bullock of Towanda, were united in marriage in Towanda on Wednesday evening, Sept. 15. The ceremony was performed in the parlor of the Tidd House, Justice of the Peace John Meredith officiating, in the presence of a company of relatives and friends of the contracting parties. Mr. and Mrs. Canfield will make their home in Sayre.

DOUBLE WEDDING IN CANTON CHURCH.

Pretty and Prominent Social Function on Wednesday of Last Week.

A double wedding, the first one celebrated at Canton in many years, was solemnized in St. Michael's church Wednesday morning Sept. 15, at 8 o'clock when Mae Churchill, of Grover, was married to Charles E. McCarthy, also of that place, and Miss Susie McCarthy, also of Grover, was married to William Looney, of New York city. The ceremony was followed by solemn high mass by the pastor of the church, Father Shields, assisted by Father Butler, of Blossburg, and Father Gaffney. The church was prettily decorated with cut flowers and greens and prevented an attractive appearance. Mrs. Mary Crist sang as the overture "Oh Promise me." The wedding march was played by Mrs. P. J. Ronan, and the choir assisted with selections during the ceremony.

Both the brides wore traveling gowns and were unattended, the wedding breakfast was served at the residence of Melbourne Churchill at 10 o'clock and the dinner at 5 o'clock at Patrick McCarthy's. Mr. and Mrs. Looney will reside in New York and Mr. and Mrs. McCarthy will live in Lowville, N. Y.

Lundy—MacMorran.

At the home of Mr. and Mrs. A. J. MacMorran on North Main street, Wednesday evening, Sept. 15, occured the wedding of their daughter, Bessie A., to I. LaVerne Lundy of Standing Stone. Promptly at 8:30 o'clock the wedding march, Lohengrin, was started by Mrs. I. L. Watkins, sister of the groom, the bridal party consisting of Charles L. Mac Morran, brother of the bride, Miss Florence A. Lewis, Newton B. Lundy, brother of the groom and Miss Elizabeth Mac Morran, descended the stairs and entered the parlor which was beautiful decorated with evergreen, where the ceremony was performed by Rev. Carl Councilman of Wyoming, assisted by Rev. Dr. Mills of the M. E. church. The bride wore a delicate blue silk and carried a beautiful boquet of white asters. After congratulations and best wishes were extended by all present, the wedding party entered the dinning room, where the bride's table was most tastefully decorated with green and white clematis and sweet peas, and a most bountiful supper was served. The out of town guests were: Mr. and Mrs. T. S. Lundy, Mr. and Mrs. George S. Lundy and Mr. and Mrs. B. L. VanNess and daughter Edna of Standing Stone; Mr. and Mrs. F. F. Clark of Tioga, Mr. and Mrs. I. L. Watkins and daughter Vera and Florence, of Ghent; Newton B. Lundy of Orange, N. J.; Mr. and Mrs. G. D. Mac Morran and children, Harlan and Louise, Miss Elizabeth Mac Morran, Wm. A. Mac Morran of Athens; Mr. and Mrs. C. E. MacMorran and children, Ralph and Ray and Irene of Horn Brook; Mr. and Mrs. G. B. Lewis and daughters, Evelyn and Etta; Mr. and Mrs. J. J. Lewis, Horace and Reece Lewis, Mr. and Mrs. M. V. Greening, Miss Florence A. Lewis of Saco; Mr. and Mrs. Percy Walter of Ulster; Mrs. A. W. Bowen of North Dakota; Chas. I. Mac Morran of Rochester, N. Y. After an extended trip through New York and Ohio Mr. and Mrs. Lundy will reside at Standing Stone.

Invitations Issued.

Mr. and Mrs. Cortez H. Jennings have issued invitations to the marriage of their daughter, Miss Sara Hicks Jennings to Robert Edwin Kizer, to take place Wednesday evening, Sept. 29, at 8 o'clock, Christ Church, Towanda. A reception will be held at the Jennings home, 108 Main street, immediately after the ceremony.

Marriage Licenses.

The following marriage licenses were issued Thursday: Ned Miller and Ella Carlton, both of Athens; Isaac Vangorder of Sayre, and Marguerite Williams of Kingston; Charles O. Simmerson and Edna Maud Stanton, both of Windham.

Double Wedding.

Clay Blackwell and Miss Edith Merrill; Percy Merrill and Mary Bailey, all of Waverly, were united in marriage at the M. E. Parsonage in Waverly on Wednesday evening, Sept. 15, Rev. Robert Clark officiating.

Northrop—Isbel.

Married at the Methodist parsonage, by Rev. L. D. Palmer, Tuesday afternoon, September 4. Henry H. Northrop and Miss Susie B. Isbel, both of Monroeton, Pa.—Owego Record.

REUNIONS.

Luther.

The relatives and friends of the Luther family met at the home of Hiram Luther Sept. 11, 1909, to hold their fourth annual reunion. The day was all that could be wished for and at an early hour over 100 had assembled. The forenoon was spent in greetings, a pleasant feature of the occasion was the presence of Mrs. A. L. Kimmel of Garretson, S. D., daughter of Ransom Luther, deceased, who left for the west 21 years ago; also the presence of Mr. and Mrs. Martin Luther of Santa Barbara, Cal., who left two years ago. At noon the company was invited to the church and partook of a bountiful dinner served by the ladies of the church. At 2 o'clock a business meeting was called by President B. K. Luther. Singing Nearer my God to thee, prayer by Rev. W. P. Miller. The old officers were re-elected with H. D. Luther, treasurer. An interesting letter was read from Maud Sara Luther of Tayler, Mo. A short program was carried out. Rev. W. P. Miller gave a talk on history of Martin Luther. It was decided to hold next gathering at same place in 1910. Committee to set date, Mrs. Hattie Strope, Mrs. Jennie Taylor and Mrs. Marion Mingos. Meeting closed with singing God be with you till we meet again. Prayer by Z. L. Morgan.

Lewis—Mingos.

On Saturday Aug. 28, 1909, on the grounds of the East Towanda Agricultural society gathered seventy-five of the descendants of Jehn Lewis and Conroid Mingos for the 10th annual reunion of the Lewis and Mingos families. The forenoon passed quickly in greetings and preparation for dinner and the noontide hour presented tables laden bountifully. Col. E. J. Ayers, the president, assembled the relatives at 2 p. m. Four marriages were reported as occuring since the ninth reunion. Also six births and two deaths. Pleasing songs by Capt. Kilmer and an interesting paper by C. F. Heverly of Towanda, brought the session to a close. The remainder of the afternoon was pleasantly spent in visiting and with a parting song the relatives returned to their homes.

Reunion of the 50th and 58th.

The annual reunion of the 50th and 58th Regiments, Pa. Volunteers, will be held at New Albany on Friday, Sept. 17, 1909. There are but few of the survivors of these organizations left to us, and the one thing above all others, that the patriotic people can do to welcome the old veterans, is to decorate their homes and business places with the flag of our country, which they endured so much to maintain. The schools of New Albany are cordially invited to meet with us at the Baptist church at 2 p. m. It is hoped the people of the town and vicinity will meet with us and greet the veterans whom they have always honored when meeting in their town. Refreshments will be served in the church parlors. Joseph T. Hested, Pres. of Ass'n.

Everitt.

The third annual reunion of the Everitt family was held at the home of Mrs. A. Maynard, in South Towanda on Sept. 16, 1909. The guests began to arrive at an early hour and at one o'clock, 73 sat down to well loaded tables. A business meeting was held at which the same officers were elected as last year: President, G. A. Everitt; vice-president, T. H. Everitt; secretary, Mrs. A. Maynard; treasurer, Mrs. A. Palmer. Among those present from out of town were Mr. and Mrs. G. A. Everitt of Binghamton, N. Y., Mr. and Mrs. T. H. Everitt and Mrs. A. Palmer of Sayre, Pa.

Doane.

The descendants of Daniel and Sallie Doane held their annual reunion in the Methodist hall at Nichols, N. Y., on Thursday, Sept. 2. Relatives to the number of 130 were present. At 12:30 the company gathered around the table where the bounties of the baskets were spread. After dinner the president, Everet Doane of Elmira, called the meeting to order for a short literary program. After this the business meeting followed. It was voted to hold the next reunion in the same place the last Thursday in August, 1910.

Proof.

The fourth annual reunion of the Proof family was held at the home of John Proof at New Era on Saturday, Sept. 11. Forty-eight relatives of this family attended. An elegant dinner was served in the grove near the house, after which a business meeting was held and officers for the ensuing year were elected. Next reunion will be held at Wyalusing.

All kinds of job printing done at The Review office on short notice.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

Towanda, Pa.

TOWANDA, PA., SEPT. 23, 1909.

REPUBLICAN NOMINATIONS.

JUSTICE OF THE SUPREME COURT
Judge Robert von Moschzisker,
of Philadelphia.

AUDITOR GENERAL,
A. E. Sisson of Erie.

STATE TREASURER,
Jeremiah A. Stober of Lancaster.

JURY COMMISSIONER,
A. C. McGovern of Athens.

A NOTIFICATION AND INVITATION

Several years ago Harrisburg joined the ranks of cities with a reputation for progress, and it is pleasing to us to note that the town has materially advanced industrially and commercially. The Harrisburg Telegraph came out last week with a half page proclamation calling upon the workers of the city to seize the golden opportunity now presented to make the city bigger and better. The proclamation is as follows:

"For two years capital has been marking time and preparing for the industrial and commercial activity which is now at hand. Scores and hundreds of manufacturing enterprises have been conceived and are now ready to take concrete form in actual operation. Many of these corporations are now considering the important question of location. With these facts in view and recogizing further the necessity for co-operation in all matters affecting the public weal, we, the people of Harrisburg, invite all manufacturing and other interests wherever located to investigate our unsurpassed advantages as an industrial center and call upon the Board of Trade, the associations of merchants and all kindred organizations to unite—as they have united in making of a greater Harrisburg—for the expansion of our industrial activities. For these objects and the accomplishment of these purposes we hereby pledge our earnest efforts, invoking the support and influence of every man, woman and child in the making of a city that shall stand forth not only as the most progressive along the lines of cleanliness and sanitation, but also in industrial and commercial importance."

The above proclamation and invitation is well phrased and calculated to do good work in securing the ends desired. And now, further, speaking for the people of Towanda, the City of Promise, we invite the attention of these "scores and hundreds of manufacturing enterprises" which "have been conceived and are now ready to take concrete form in actual operation," and these many corporations "now considering the important question of location" to the pertinent and important fact that an immense power dam which will control and hold in check water which will furnish an almost unlimited supply of the cheapest power in existence for manufacturing purposes is about to be constructed at Towanda, and that Towanda is therefore the place for them to come to. In addition to the above first and primary requisite it may be said that Towanda already has excellent shipping facilities, is healthfully and charmingly situated at one of the most beautiful spots on the Susquehanna river, has a population of about six thousand people, numerous churches, the best of schools, is the county seat of one of the foremost agricultural counties in the state, and is peopled by a refined and educated community. No enterprise "now considering the important question of location" can afford at this time to overlook Towanda. Towanda is now in the race for industrial and commercial supremacy, and all roads lead to the City of Promise.

The Pennsylvania Prohibitionists are in the fight this year with Prohibition as their main drive, and they will not fuse with any other party or issue. Chairman Burton L. Rockwood of the Prohibtion state committee declared the other day that under no consideration will his party fuse with the the William Penn party this Fall. "The men nominated on the Prohibition ticket at the June primaries will stay till the last ballot is counted," said Mr. Rockwood. "Fusion is a thing of the past with our party. I believe we will very largely increase our vote and probably poll from 50,000 to 60,000 in the State. It is our experience that every time a State Legislature defeats a local option bill our vote goes up by leaps and bounds"

The Wellsboro Advocate expresses a wish that may properly be endorsed by all good Republicans. It is as follows: "So we wish our Democratic brethren well. May they get together. May they still remain the minority party, but by so close a shave as to scare the Republican party to its right smartly and make it afraid to go [illegible]."

A SURE THING NOW.

It is with pleasure that we record the fact that Governor Stuart has signed his name to the seven charters for the water companies which it was necessary to have incorporated before work could be begun on the proposed power dam in the Susquehanna river at Towanda. It is now an assured fact that the dam will be constructed, and we are informed that one or more of the property owners on the flats have already received cash compensation for their property. This enterprise means more to Towanda, we believe, than any single event in her history, and there is consequently much rejoicing, and we are experiencing a period of good feeling and congratulation. When the work of construction begins, next Spring, a large force of workmen will be put on and will remain at work for a year or two, and this alone will materially add to the prosperity of Towanda and her neighbor, Wysox. After the dam is completed and we have an abundance of cheap power there is every reason to believe that our town will experience a material growth and a large increase of population. Not a long time since a non-resident, who was in Towanda for a brief stay, said to a Reporter-Journal representative: "I think you Towandians are expecting too much of this enterprise. The electrical power which can be produced by the water power is transmissable with but small loss. It can be sent away—north or south, or anywhere. You cannot be sure that you will attract a lot of industrial establishments simply because you have electric power, because your power can be used without coming to Towanda to use it." We have heard considerable of this kind of talk. It is, of course, easy to deceive one's self when the wish is father to the thought, and over-enthsiasm lends itself to an exaggerated and false estimate. Perhaps our townspeople have got their sights too high and are expecting the power dam to do more for us than it will do. However that may be, the truth remains that there is every reason to believe that the enterprise will be a material aid to our town and strongly stimulate our industrial and commercial growth and development. The power produced can be furnished at Towanda cheaper than anywhere else, and on this score, if on no other, Towanda has the advantage, and it is, other things being equal, a great advantage. An immense electric power has and is being produced at Niagara Falls, N. Y., and while much of it is transmitted to other points, enough of it is used at Niagara Falls and in the immediate vicinity to have added greatly to the growth and prosperity of that locality. Towanda is sure to be greatly helped by the power dam, and it would be strange indeed if this were not so. We have heard it said that a large share of the increase in values and business will go to Wysox. Let it go, then. We would rather it would go to Wysox than any other place if Towanda can't get it direct. That matter will take care of itself. Wysox will get what benefit she can, and Wysox cannot be greatly benefitted without Towanda coming in for a generous share. We on this side the river are naturally selfish, but we do not fear whatever division of augmented values and trade we shall be forced to make with Wysox.

With an 1800 acre lake nestling by her side, will there be any town in this part of the country that can equal Towanda, beautifully located as she now is, in the attractions offered the great and yearly increasing public that annually selects a, spot at which to spend the Summer vacation We think not. Towanda has great possibilities as a summer resort.

Some persons affect to despise the newspaper, while others tell us they read no book less than ten years old. The newspaper contains many grave faults, but it is an indispensable factor in the busy life of the present, and whosoever ignores it is not likely to cut much of a figure among his fellow. The worst fault of the newspaper of today is a disposition to exaggerate for the sake of adding to the interest of the story. It is a pity the modern reporter cannot always be depended upon to make a careful examination and report the exact facts in connection with passing events. The trouble is that exaggerated narratives not only lead the reading public astray, but will give the future historian much trouble. And yet, says The Altoona Tribune, which is a very good newspaper, the newspaper with all its defects, is one of the great institutions of our century. He who ignores it does so to his personal injury.

Many citizens who are anxious to see the entire grain product of the country used for food will hope there is more than idle rumor in the story which credits two citizens of Chicago with the discovery of a process by means of which pure alcohol can be manufactured from saw dust at a cost of about seven cents a gallon. The discovers of this new method affirm that they will be able to supply alcohol at a price which will drive grain alcohol out of the market. They think they will be conferring a blessing on the consuming public by adding to the world's food resources. And then many believe it is a shame to degrade good grain to such evil use as the manufacture of alcohol.

An Italian boy at Hampton wrote the followed in a composition on Patrick Henry: "Patrick Henry was not a very bright boy. He had blue eyes and light hair. He got married and then said, "Give me liberty or give me death."—Exchange.

STATE CAPITOL TOO SMALL.

Naturally the state of Pennsylvania is surprised to learn that the new $13,000,000 capitol at Harrisburg is not large enough for the purposes intended in its plan and that already the officials of the state government are considering the situation as serious in looking toward immediate future needs. It is realized that the magnificent structure cannot be enlarged without destroying to a great degree its symmetry and architectural beauty, yet more offices are required.

Of the many committee room originally devoted to the exclusive use of the legislature, all but ten have been appropriated by government departments and before the next session others must be considered. This is all very well for the interim before the session is called, but what will then happen produces clammy sensations among the men of the various departments who are very proud of the building.

It must now be recognized that the late Governor Hastings was right when he urged the importance of giving the legislative body a building separate from the state departments. The tendency of modern architectural fitness is to group separate buildings in picturesque landscape architecture, but not all under one great roof. It is realized that some features of the state capitol might have been improved thus affording more room and better facilities. For instance a building could have been secured for the steam heating plant of the colossal structure that would have been a great advantage and convenience, located near the building but not occupying so much valuable space within its walls and offering other inconveniences to the inmates. Such a place was offered for the purpose but the proposition was declined.

It might be suggested that the present hot-houses, inadequate and insignificant in contrast with the other architecture of Capitol Hill, might be removed to give way to an office building that would relieve the present crowded condition.

THE COUNTRY SCHOOL.

While marked improvement has been made in the rural schools of this country, they are yet not all that they should be. Frequently they are woefully deficient in the matter of equipment, says The Seattle Post-Intelligencer. Often, too, the conditions of the public highways and the lack of other means of transportation make it difficult for pupils to reach these centers of education. Of course, in the very nature of things the rural school probably cannot be brought up to the high standard of schools in urban centers; but certainly they may be improved in many ways, and there are few more important educational problems than the problem which has to do with the improvement of those educational institutions. The country school is an important and vital factor in our system of education, and we have not paid as much attention to it as its work and worth have merited. The usefulness and social and economic efficiency of many men and women who must play some part in the affairs of tomorrow will depend wholly upon the kind of training they receive in country schools, for circumstances will make it impossible for such as these to get beyond the village schoolroom in their efforts to secure an education.

THE COUNTY FAIR.

Ho for the county fair! The folks will all be there, and Cousin Jane and Uncle Sam, and the pigs and the cows and the big prize ram, and the bales of hay and the bands that play—why, the folks they just can't keep away; you miss a lot if you don't go—say, will you be at the county fair?

It's time to harness up the horses and put all the family in the carriage, the buggies, and the big wagon, and drive them right up to the spot that for several days is the center of the country.

If you have never been to a county fair, you have missed your share of life's fun. But it cannot be possible that you never have been. Everybody goes, everybody and his wife and all the children. And they do have one good time. The exhibits are interesting, and range all the way from the races—on which it is whispered that some of the reckless bet real money—to the close contest between Mrs. Williams' blackberry jam and Mrs. Jones' quince preserves. There you see the melons, the pumpkins, the tomatoes, and corn and turnips that look as fine as the pictures on the seed packages. The prize bull and the 400-pound Berkshire hog divide interest with the pet ponies and the trim thoroughbreds. And down the midway there are all kinds of shows, exciting enough to keep the crowd in a state of constant amusement. After going into the moving picture tent, and seeing the snake charmer and hearing the lady with the cracked-ice voice sing and dance; after trying to toss rings around the canes and throwing a few baseballs at the "nigger's" head, buying peanuts and popcorn and drinking a glass or two of red lemonade, you and your girl can go over and get your picture "took" or taken, just as you like.—Baltimore Sun.

It is the duty of every citizen to read carefully the constitutional amendments so that he may vote intelligently on their adoption. It is not a political question at all. It is one as to whether the constitution of the state should be changed to meet certain contingencies. Inasmuch as the constitution is the foundation of our government it should be most intelligently cared for and for that reason you should read what the proposed changes are so that when you come to vote you will know what to do.

GET READY FOR THE CENSUS.

The decennial Federal census, to be taken next April, will prove of greatest importance to agriculture. Excellent opportunity right here for farmers to help themselves through helping the Government officials. The time to begin is right now, this Fall. The first step is to keep tab on the acreage, yield and volume of your own 1909 crops. It goes without saying that business farmers do this ever and always; for their own good and quite outside of intended aid to the statisticians. But the necessity of this should be fully realized by every farmer at this time; because next April he will be asked simple yet important questions, which he can only satisfactorily answer by taking a record this Fall and keeping it before him. Another thing worth remembering is the Federal law requirements to learn from farmers regarding equipment, inventory, farm expenditures, etc., these of date next April, while the questions about farm operations will relate to the present calendar year 1909. There are six million farms today and probably 12 millions or more persons over ten years of age engaged in agricultural pursuits. Truly, a business proposition of this kind is worth the cordial co-operation of farmers in the matter of census statistics. American Agriculturist urges upon farmers their hearty co-operation in this matter.—American Agriculturist.

Our farmers will please make a note of the above, not for this year, but for all years. This year the long drouth will not give us the record for farm production we are entitled to. But if we could take the nine fat years with this one lean one we could still hold the pennant as the greatest agricultural district of the Union.

But the main point in the above is that we should be prepared for census taking any year. The successful farmer keeps books. He should know in detail outcome and income, cost and profit of production, the wear and tear of machinery, price of labor, the cost of feeding in relation to outcome, and so on. It is just as necessary for a farmer to keep books as for men in any other business. He needs a profit and loss account as much as a merchant.

When the census man comes around he will be doubtless surprised to find so few farmers who can tell from their books how they stand and the amount of their production of every small item the farm raises.

The census will be well worth the cost if it makes our 12,000,000 farmers hereafter keep books.

There are any number of workingmen in Towanda and Bradford county who would like to see the tax removed from oleomargarine. Of course we expect this will make our agricultural friends sit up and gasp, but it cannot be helped, and it is an honest conviction. It has come to a point when the man working for day wages cannot afford to buy butter at the present high prices, and it is these people who have to pay the tax on the substitute, oleo. A large number of farmers and dairymen in Bradford county are selling their milk and cream and are purchasing oleo at the three Towanda stores which now handle this product. This we have learned from the dealers in oleo themselves. If the farmer who makes the butter finds oleo good enough and cheap enough to make a big saving, why should not the working man? Butter at 35 and 38c per pound and going higher all the while, it will not be long until two thirds the people in this section will be using oleo, simply because they cannot afford the high prices being charged for butter. We have heard several reputable working men say within the last few days that the tax should be taken from oleo, and are inclined to think that they are right. What kick can the farmer make who sells his milk and cream and on his own table uses oleomargarine?

The Philadelphia Ledger gives some timely facts going to show the greatest of our Commonwealth in this editorial paragraph: "Pennsylvania is a marvel among States; it is a wonder among political divisions of any sort, at home or abroad; its position is practically unique—it has no debt, it owes nothing, it pays as it goes, it has not even placed a burden upon posterity. The balance on deposit in the State to the credit of the State treasury at the end of November last was $9,540,604.66. After making allowance for the sinking fund to cover bonds and interest and every possible demand, the net balance was nearly $7,000,000. The net amount to become available for the two years from June 1, 1909, to May 31, 1911, is nearly $42,000,000, and it may be more. Many people want the state to expend many millions more than the amount at its command, but the governor and the Legislature have complete control of the situation, and it is a simple problem to handle. They may, if they so desire, keep the appropriations down to the revenue, and Pennsylvania will continue to owe not a cent. There are few enterprises, individual or corporate, which have the slate so clean as the state of Pennsylvania."

The Indiana State Board of Health is trying to put into practice some of the knowledge, which is perfectly familiar, even if often allowed to go by default. It has prepared a sample ordiance, to be sent to all the cities and towns, with the request that it be adopted and enforced. This measure makes it the duty of the police to see that there are no breeding places for flies, especially that nothing likely to atttract them shall be left uncovered. The result will be watched with interest.

NEWS OF THE GRANGES

Conducted by A. T. LILLEY

Past State Lecturer A. M. Cornell a short time ago spent a week in New Jersey with G. W. F. Gaunt, lecturer of the National Grange. He reports thrift in Grange work wherever he goes.

The membership of the Grange in the State of New York has increased 10,000 during the past three months. Total i n the state is now 93,000.

Seventy-five new Granges have been added to the state roll during the past year in Washington.

The forty-third annual session of the National Grange will be held at Des Moines, Iowa, in November.

The business agent of the Ohio State Grange reports the combined purchases of binder twine amounts to $16,000.

So far no tent caterpillars have been reported in Western Bradford during the past summer, but the codling moth has been very active and that too without the curculio.

Many more than the usual number of Grange picnics have been held in the county during the past few months, thus showing continued interest in the strongest of farm organizations.

Fox Grange of Sullivan county has bought a building, placed it on a new foundation and will soon have a good hall of its own. Every grange should have a hall of its own and we are pleased to note that nearly all of the Granges in the county have.

More than 60 per cent. of the members of Central Grange on Shores Hill were present for the yearly inspection by the deputy on the 8th inst. The feast and inspection which followed the conferring of the second and third degrees were enjoyed by all. With united effort and a pull all together this Grange may increase its building fund so as to have a new hall that will give additional strength to the already strong interest that is manifested by the members.

Judging from the many congratulations received, the membership of the county is well pleased with the reorganization of Litchfield Grange last month. The querry now is: "Why do not the progressive farmers of Terry and Asylum fall in line to secure a Grange for each township?" Many promises have been made but who is to act first?

Brief clipping from abstract of Bul. 142, Ag. Exp. Station, Burlington, Vt., sent us by H. G. Newell, librarian of LeRaysville Grange: Potatoes, no late blight in 1908, flee-beetle, tipburn and early blight especially troublesome. Thorough spraying, not sprinkling, with Bordeau mixture (blue vitrol, lime and water, 5-5-50) twice, yielded 67 per cent. more, and spraying three times, 141 per cent. than the unsprayed.

Eighteen years the station has used Bordeau mixture; average increase 92 per cent., 112 bushels per acre. Lowest increase 26 per cent. and highest 215. Varieties planted: White Star, Polaris, Green Mountain and Delaware, planted May 15 to June. Unsprayed 54 bushels per agre the lowest and 267 the highest, agerage 159.

Where sprayed lowest 133, the highest 388, 18 year average 271. Average increase for 18 years 112 bushels per acre, by using properly prepared Bordeaux mixture and arsénate of lead. Bulletin No. 113 gives full particulars and is free.

Sometimes it so happens that an inspector of Granges between times, inspects the rocks from which soil is made and in so doing catches fish without hook, line, bait, wire or net. This was the case on the 9th inst., when walking down the Narrows road from James street bridge after visiting Central Grange on Shores Hill numerous scutes of a minute species of Bothriolepis were gathered from the well exposed Chemung rocks also some finely ornamented scales of some fish. Many scales of a paleozoic fish, of some age, known as Acanthaspis, were picked up. This fish has remarkable spines for self defense one of which is now in the geological collection at LeRoy.

Just at this time of the year it is noted that many farmers and their families are making preparations to attend the agricultural fairs but not so many to take part in making the exhibitions what they ought to be. Everyone near by ought to use their best effort to make all who attend feel that they have been well repaid for time spent at the fair. Do not forget this may be said to the attendant. Get all the information you can in general, but choose some one thing and learn as much about it as you can.

Some things to remember: On account of better roads the English farmer can haul his produce at one-half the cost the American can; everything that is worth having costs something and it is this cost that is held up as a scarecrow to hold in check all human progress; the national master says the Grange in Pennsylvania was never in a more prosperous condition than it is today and yet there are counties that have no Granges; Tioga county claims to be the banner county in Grange work in the United States having 5,000 members and 38 subordinate Granges; Bradford has 34 Granges with room for several more and the Granges own halls enough to accommodate more than 5,000 members. Now let the workers buckle on their armor and work with a will that may bring forth good results. The next session of Pomona Grange, No. 23 will be held at New Albany in November. A full report of the work in the district is expected at this time and all should add their strength to make it satisfactory to themselves and to those who are only lookers on.

LIGHT VOTE AND MUCH MARKING

We are electing this Fall a supreme court judge, an auditor general, a state treasurer and a jury commissioner, and the Democratic candidate for state treasurer is a Towanda man, notwithstanding all this there is not as much excitement in this town over the election as we often have over the choice of a burgess or a school director in the borough. That there will be a light vote in the county is certain, but the slump in the vote will affect both parties, and the Republican majority will be a good one. But if the vote is to be a small one it seems assured that those who do vote will have quite a chore on their hands when they come to mark the ballot. To vote a straight party ticket and at the same time vote for or against the proposed constitutional amendments it will be necessary for the voter to mark his ballot twelve times. One mark will be required in the square opposite the party name for a straight vote for all the candidates of that party, and, as there are ten amendments and a schedule, eleven more marks will be necessary. The voter who undertakes to split his ticket will, of course, have to make as many additional marks as there are state and county officers to be filled.

It is already evident that the proposition of a great central bank of issue, which has the endorsement of President Taft, is going to meet with strong opposition. In a speech at Boston the other day the President outlined the plan and made the statement that for its successful carrying out there were two indispensable requirements, as follows: "One is that the control of the monetary system shall be kept free from Wall Street influences, and the other that it shall not be manipulated for political purposes." The Pittsburg Dispatch says: "It is judicious for the central bank of issue idea to start out by cutting off relations with both Wall Street and politics, but it might be judicious to explain how an institution, created by legislation and dealing with the greater operations of finance, is to perform that interesting and important feat.

We note elsewhere the death of Dr. Leonard Pearson, state veterinarian and head of the University of Pennsylvania School of Veterinary Medicine. He was a man of eminence in his profession, and of much executive force. The efficiency and thoroughness of the handling of the foot and mouth epidemic in Pennsylvania some months ago was due in a large measure to him. The epidemic prevailed in other states and the United States Government took active part in its expiration, but in no section was it more skillfully and effectively combated than in Pennsylvania. The railroad stock yards at Sayre were under quarantine at this time. The deceased veterinarian had visited Bradford county several times, and had acquaintances and many admirers here.

When it comes time to nominate a governor there will be those who will be willing to run. Lieutenant Governor Robert E. Murphy is already doing quiet campaign work in several counties, looking to the gubernatorial nomination. It is said that he wants Senator Catlin on his slate for second place, but the senator's friends insist on first honors or none. The Harrisburg Telegraph says that Colonel Louis A. Watres of Scranton is "looming up" again as a formidable candidate for governor; that Charlemagne Tower is "a possible Republican candidate," and that Senator William C. Sproul of Chester will "figure largely in calculations" for the nomination.

In an editorial on the abuses of the automobile the Philadelphia Record says that prevalent practices are slowly but surely paving the way for state legislation outlawing the construction of machines of high power. Which means that if owners of machines of high power will not use them in a way that does not endanger life the law will step in and forbid such machines being made. And this is what the law should do.

The Pittsburg Dispatch thinks that in view of the fact that last year the U. S. imported $1,300,000 worth of Scotch whiskey largely made out of American corn, with proper protection to an infant industry we might be able to make Scotch whiskey in this country.

CUTICURA CURED CHIEF OF POLICE

Canadian Officer Poisoned by Weeds —Eczema Developed and Legs Became Scaly—Ankles were Very Sore and Itchy — For Weeks He Could Not Wear Shoes.

FREED FROM ITCHING BY CUTICURA REMEDIES

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds, it being part of my duty, from the edge of a river and was constantly in the dust from the weeds. At night I shook out my trousers and cleansed my limbs, but felt a prickly sensation. I paid no attention to it for two years, but I noticed a scum on my legs like fish scales. I could scrape it off, and yet I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I was then on particular police duty and was compelled to be on duty. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks, though on duty all the time, I was free from the confounded itching. I tell you frankly that Cuticura saved me from what the doctors called a bad leg. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

For Baby's Bath

Cuticura Soap has Become the Mothers' Favorite.

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, most soothing of emollients, preserve, purify and beautify the skin, scalp, hair and hands of infants and children and, assisted by mild doses of Cuticura Pills, afford the most speedy, grateful and comforting treatment for torturing, disfiguring eczemas, rashes and every form of itching, scaly, crusted humor of the skin and scalp. Guaranteed absolutely pure.

Cuticura Remedies are sold throughout the world. Depots: London, 27, Charterhouse Sq.; Paris, 5, Rue de la Paix; Australia, R. Towns & Co., Sydney; So. Africa, Lennon, Ltd., Cape Town, etc.; U.S.A., Potter Drug & Chem. Corp., Sole Props., Boston.

BRADFORD REPUBLICAN

TOWANDA, PA., SEPT. 23, 1909.

The Sullivan county fair will be held at Forksville on Oct. 5, 6, 7 and 8.

Mrs. Carrie Swanson of Osseo, Minnesota, is the guest of her cousin, Mrs. M. Chilson.

'Squire John H. Orcutt is visiting relatives and friends in Chemung county, N. Y.

Mrs. Alma Wardell of Poughkeepsie, N. Y., has been the guest of Mrs. C. D. Dimock.

Miss Lena Kilmer and Miss Bessie Ellis of Ellis Hill, were shopping in Towanda on Tuesday.

Fred Hendelman of New York city, is spending a few days with his father, M. Hendelman the jeweler.

Miss Mary Thompson has returned home after a visit with relatives and friends in Laceyville and Wyalusing.

George Mathews of Ulster, has returned to Mansfield Normal school. He will captain the football team this fall.

Hon. J. Frank Hanly, ex-governor of Indiana, will speak in the Athens rink on Saturday evening, October 2.

Mrs. William Kirwin and daughter Agnes have gone to Oneonta, N. Y., where they expect to take up their residence.

O. L. Ellsworth, M. E. Overpeck, and L. A. Bosworth, well known citizens of LeRaysville, were in Towanda on Saturday.

Earl W. Baker, formerly of Ulster, who has spent the last two years in Kansas, has returned to his home in Ithaca, N. Y.

C. H. Crandal, E. H. Goodwin, Lacey Stevens and E. L. Patterson of Stevensville, spent Saturday in the City of Promise.

Mrs. Clarence Weidenhamer of Pittsburg, and Mrs. John Fausey of Watsontown, are guests of Mrs. Calvin Fausey in Towanda.

Mrs. Ida Bowman left Friday morning for an extended visit with her daughter Mrs. George L. Moscrip of Robyville, Ohio.

William House, the champion roller skater of Athens, has enlisted in the United States navy at the recruiting office in Rochester.

A. W. Wilmot, S. Keller and wife, and C. Burns of Rome, and H. B. Wilmot of Laramie, Wyoming, were in Towanda yesterday.

Miss Mary Curran left Monday for an extended visit through the west, stopping in Monticello, Ill., Salt Lake City and Los Angeles.

Fred Mayer has gone to Chicago where he will finish his course in the Chicago Veterinary College. He graduates next Spring.

Russell Cowl, the little 3-year-old son of Mrs. Cowl, of Columbia Cross Roads, fell the other day, while at play, and broke one of his legs.

Mrs. William Foyle has started for St. Louis where she will meet her son, Charles Foyle, and will visit relatives and friends in the West.

Lorenzo Grinnell, who recently bought the Warner farm at Columbia X Croads, last week moved his household goods from Illinois to the Cross Roads.

Rumor has it that when the Winter timetable of the Lehigh goes into effect that the Black Diamond trains will make no stops between Wilkes-Barre and Sayre.

The Hawes-LaAnna company with factory and stock at La-Anna was recently sold to Hon. J. D. Honck, subject to the approval of the Philadelphia court for $2,600.

M. F. Hulslander, the apple jelley manufacturer of West Burlington, fell Monday about 8 feet from a ladder while rigging up for the season's run, and fractured a rib.

Charles Utter of Pawling, Dutchess Co., N. Y., a former resident of this county, is visiting at H. C. Spencer's at Mt. Lake and other relatives in that vicinity for a time.

Reuben L. Owen, a former well known resident of Towanda and Monroeton is renewing acquaintances in the City of Promise. He is representing the N. P. L. in Maryland.

John H. Douglass and little son of Shawnee, Oklahoma, are the guests of his mother, at Burlington. While enroute to Burlington he visited J. A. Campbell and wife on Pine street.

In the two mile foot race, at Wyalusing, Thursday, two Athenians carried away the honors of the event, Charles Capwell being first and Clinton Stroud second. The first prize was a purse of $15, and second, $10.

It will require 86,000 cubic yards of material to make the fill at Meshoppen for the change of the railroad tracks. Part of this material will come from Kittridge's gravel bank below Falls, and part from the stone quarry at Black Walnut.

Miss Edith Decker has been made one of the head nurses of the Gynecean hospital in Philadelphia where she recently finished her course. This is quite an honor and speaks well of Miss Decker's ability and popularity. She will report for duty Sept. 29.

Guy C. Hollon, the well known detective and real estate agent, accompanied by his niece, Mrs. Harry A. Keyser and daughter of Standing Stone, left on Saturday for a trip to the Pacific coast. They will visit Mr. Hollon's sister in the state of Washington, and attend the exposition at Seattle.

CAPTAIN PITCHER AND CREW WIN IN FISHFEST.

Captain John McCracken and His Boys Will Pay For Banquet.

The annual fishfest of the teams of anglers headed by Captain John R. McCracken and Captain William D. Pitcher, took place Thursday and resulted in the defeat of Captain McCracken and his crew. A year ago, Captain Pitcher and his men went down to defeat in one of these unique contests.

The teams of fishermen left Towanda yesterday morning and fished to Rummerfield, returning home on the evening train. There were five men on a side, counting the captains. Following is the lineups of the teams and the number of fish each man caught:

Captain McCracken	0
Dr. T. B. Johnson Jr.	3
William Platt	3
George R. Hill	12
John Heavener	7
Total	25
Captain Pitcher	6
Charles E. McCracken	15
W. W. Rooker	2
William Nagle	0
K. Shane	2
Total	25

The above list credits County Detective McCracken wth 15 bass, and here it is well to say that ten of them were black while the other five were yellow bass. Mr. McCracken not only caught the largest number of fish, but he also captured the largest one, a black fellow we ighing three and one-half pounds. George R. Hill was next to Detective McCracken, capturing 12, nine black and three yellow bass, one of the latter specimens being exceptionally large.

The contest was decided on points, each fish counting one point and each pound of fish one point. Each side caught 25, Captain McCracken's weighing 15 pounds and one ounce, giving him 40 and one-tenth points, while the tatal weight of the fish caught by Captain Pitcher and his men was 17 pounds and four ounces, making a total of 42 and four-tenths points which landed them winners in the contest.

Captain McCracken did not join the fishermen until one o'clock, or when the contest was half over, but he will be on hand promptly at the banquet which he and his fishermen will give in honor of the victors next Monday evening at the Platt hotel.

CAPTAIN PITCHER AND HIS CREW DINED MONDAY NIGHT

Captain John R. McCracken and His Fishermen Were Hosts at Banquet

Captain John R. McCracken and his jolly crew of one time champion fisherman Monday night entertained Captain William D. Pitcher and his victorious crew at a banquet at the Platt hotel. Last Thursday the two crews held their annual fishfest and the old agreement whereby the side catching the fewest fish was to entertain at a banquet held good, and Monday night Captain McCracken and his vanquished "fisheroes" made good.

Mine Host Platt and wife furnished spread fit for a king, and as usual the fishermen were hungry, and had no trouble in satisfying their appetites so extensive was the menu.

With the cigars came a literary and musical program, each fisherman and guests lending a hand in this respect. The evening was one of many pleasures.

The hosts of the evening were: John R. McCracken, Dr. T. Ben Johnson, William Platt, John Heavener, and George R. Hill. Their guests were: W. D. Pitcher, C. E. McCracken, W. W. Rooker, William Nagle, K. Shane, S. C. Moore, H. N. White, Charles Brink, W. E. Dayton, Fred R. Prince and U. G. Baker

Hon. P. A. Stebbins Dead.

Hon. P. A. Stebbins, president of the Citizens Savings and Trust Company, and one of the best known residents of Potter county, died at his home in Coudersport on Wednesday morning of this week. Mr. Stebbins was one of the pioneer residents of Coudersport. He was born in New York state Feb. 10, 1836. He had made his home in Coudersport for more than 40 years. He is survived by his widow and one daughter, Mrs. J. W. Wells. Mr. Stebbins had played a prominent part in public affairs and had served one term as prothonotary of Potter county. He was prominent in the Masonic fraternity.

Murder Was Committed.

After a delay of months Coroner Hammond of Chemung County, N. Y. has quietly filed his decision in the matter of the mysterious disappearance of Mrs. Serepthia Easterbrook simultaneously with the burning of the Easterbrook hotel at Big Flats last Spring. The Coroner finds that murder was committed, that Mrs. Easterbrook was foully killed and her body dismembered and that without question the fire was started in an effort to hide the crime.

Troy Court Jurors.

John E. Graham, and Charles Scott, jury commissioners, Sheriff Dean and J. H. Pennepacker acting as clerk, yesterday took from the wheel the names of the Bradford county citizens who will serve as jurors at the Troy court commencing the fourth Monday in October.

Railway Training School For Young Men and Women.

TOWANDA TO HAVE MORE GOOD APARTMENT HOUSES.

C. H. Jennings Purchases Mercur Property For That Purposes.

Cortez H. Jennings, the wealthy lumberman, who makes Towanda his home, occupying one of the finest residences in Northern Pennsylvania, has purchased the Mercur property at the corner of State and Second streets, and will erect thereon a large and modern apartment house.

Towanda is in need of more buildings of this kind, there being a constant demand for apartments with modern improvements at moderate rent. "The Brooklyn" at the corner of Second and Pine streets, which is always occupied by good tenants, proves that a building of this kind never stands empty.

The demand for good houses in Towanda has been on the increase of late, and since the building of the dam has been assured, the demand is greater than ever before. There are several retired business men living in distant cities who have an eye on the City of Promise, and every desirable place which is offered for sale finds a quick buyer. With more houses with modern improvements Towanda's population will grow at a phenomeneal rate.

The Jennings apartment house will probably only be a starter in building along this line, as several other moneyed men are seriously considering the erection of a number of houses as a means of investment.

NEW COAL COMPANY.

William H. Blight and L. S. Kingsbury Form Partnership in Elmira.

From the Elmira Telegram of Sept. 12, is gleaned the following which will be of interested to Towandians, as Mr. Blight is well known and has many friends here:

"W. H. Blight—his friends all call him "Bill"—and the coal business of this city and vicinity are synonomous. Mr. Blight has handled the dusky diamonds during and ever since his boyhood days. Hence he very naturally knows the business from the bottom of the pit to the customer's coal bin.

"With this professional experience, and his pleasing personality, there is no question about his succeeding in his new business, under the title of the People's Coal company, in partnership with L. S. Kingsbury, another well-known Elmiran."

Child Drank Poison.

On Friday, Evelyn, the baby daughter of Mr. and Mrs. J. M. Allen in her innocent explorations, came upon a bottle of carbolic acid. She drank some of the deadly liquid and when discovered was unconscious. Dr. Harshberger was immediately called and gave the child prompt treatment. She hovered between life and death for many hours while the anxious parents waited and watched in hopeless agony for the life of their darling to go out, but as time passed hope revived, and at last the danger point was passed. The child is recovering. The whole community rejoice with the glad parents that the life of the little one was spared. She is a remarkably sweet child. Without a thought of censure for these chastened parents, who have come from the crucible of awful anxiety, we implore all who read this to keep poisons out of the reach of baby fingers.—New Albany Mrror.

Poison Instead of Whisky.

Stealing a whisky bottle nearly full of poisonous disenfectant from the Wilkes-Barre police station, Andrew Meeker, a well known character of the Diamond city, sought seclusion in a barn in the outskirts of the city so that he could imbibe the contents at his leisure, he being under the impression that he had stolen the private bottle of one of the bibulously inclined cops. Three hours later he was found in the barn in a very critical condition from the effects of the poison. The chances are that he will not recover.

Handsome Monument.

Mrs. Jane E. Peet has erected a monument in the cemetery at Camptown as a token of respect to her late husband, George Peet of Cold Creek. The monument is of a very pretty design of Barre Granite with the name "Peet" carved on the face and stands about six feet high. The work was done by Burchill Brothers of Towanda, and adds greatly to the attractiveness of the cemetery at Camptown, which is one of the most beautiful cemeteries in Northern Pennsylvania.

Fire at Woodside.

A small tenant house on the Major Hale estate at Woodside, Towanda township, was destroyed by fire about 11 o'clock Monday night. The origin of the blaze is unknown. A family named Smith had been occupying the house, vacating Monday. The house was empty at the time of the fire.

Turkey Thief.

The other evening a thief entered the turkey roost on the Eli Johnson place on R. F. D. No. 9 and stole eleven choice birds, weighing ten and twelve pounds each. A reward of $5 is offered for the arrest of the thief.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any cause that it fails to cure. Send for a list of testimonials.

Take Hall's Family Pills for constipation.

MICHAEL MURRAY MEETS TRAGIC FATE IN BROOKLYN.

Former Resident of This County Asphyxiated by Gas in His Home.

Michael Murray, son of the late M. Murray of Hollenback, was asphyxiated in his room at his home in Brooklyn, N. Y., on Tuesday night of last week, the gas escaping from a defective pipe in his room. The remains were brought to his old home at Hollenback on Thursday, and the funeral was held at the Lovelton church Friday morning at 10 o'clock; the interment was in the Catholic cemetery at that place. Mr. Murray leaves a wife and two children.

His death caused by inhaling illuminating gas, which escaped by a leak in the jet, which furnished light for his room. Two friends occupied rooms next to his, but they did not detect the flow of deadly gas, nor was a discovery made of him, till the fatal work has been done. Mrs. Murray and two children had left the city a few days before, to be present at the golden wedding of her parents, Mr. and Mrs. Peter F. Hope at Stowell, hence Mr. Murray's being alone at the time.

Mr. Murray was a son of the late Michael Murray of Hollenback, and high age about 36 years. About four years ago he removed to New York where he was employed in an automobile factory at a high salary he being not only a faithful employe but a man of good habits as well. The wife and children having come to her old home to participate in the festivities of a golden wedding, the blow fell with crushing force upon them—particularly the mother who was completely prostrated at the reception of the sorrowful tidings.

Penny Collector.

Says the Sayre Times-Record: "A Lehigh Valley passenger conductor has been collecting pennies. A short time ago he saw an ad. in a Syracuse paper offering $2 for 1908 pennies. The conductor commenced collecting pennies bearing the date 1908. His companions thought it was peculiar for him to want a coin so common so they commenced helping him. Finally they charged him for their work and the price increased until he was paying $1 each for 1908 pennies. When his collection had reached 32 he started for Syracuse. Reaching there he hunted up the man who had inserted the add and proudly produced the coppers. "There's only 32 pennies and my ad said I would give $2 for 1908 of them." Then the Lehigh conductor departed sorrowfully."

Nice Sum for Bible Conference.

A news dispatch sent out from Montrose says: "The latest computation of the offerings made at the closing sessions of the Bible conference shows an even larger sum than was at first given out. The cash offerings amounted to $1,648.13, and the subscriptions to $3,834, making a total of $5,482.13. When Secretary Mahy first announced the intention of endeavoring to raise $5,000 it was thought quite a stiff proposition, but the amount was more than subscribed without any urging. If the pledges are promptly paid it is expected by the next conference that every obligation will have been met."

Breakeman Injured.

Benjamin Northrup, of Sayre, who is employed as a brakeman for the Lehigh Valley, fell from a freight car at Odessa late Saturday afternoon and sustained injuries which necessitated his removal to the hospital at Sayre. Northrup was climbing the side ladder of the car when the engine suddenly started and he lost his hold on the rungs of the ladder and fell to the ground. It was at first feared that several ribs and his hip bones had been broken, but an examination at the hospital disclosed the fact that he had been only severely bruised. He will be out of the institution in a few days.

Romance Comes to Light.

A romance of long Standing has come to light in the wedding of Mrs. Cora Hoover of Sayre, and Fred York of Wysox. It appears that they were engaged to be married fifteen years ago, but through a quarrel were separated, and the woman married a preacher. Some time ago the minister died and Mr. York again started his courtship and marriage was the happy climax.

Has Good Position.

T. Desmond Weaver, of Sayre, has taken a position as assistant superintendent of the Allentown Rolling Mills. He is a son of the late James N. Weaver, twice postmaster of Sayre. He is a graduate of Cornell university and has been employed for some time past in the plant of the Cayuta Manufacturing Co., of Sayre.

Marriage Licenses.

The following marriage licenses were issued Wednesday: Ira E. Hibbard and Nina E. Allen, both of New Albany; LaVerne Lundy of Standing Stone, and Besie MacMorran of Towanda; Frank E. Coggswell of Gage, N. Y., and Jennie Daugherty of Canton.

Register's Office News.

Letters of administration upon the estate of Harriet Bennett, late of the township of Standing Stone, deceased, granted to Frank H. Bennett. The will of Mary A. Braund, late of the borough of Towanda, deceased, admitted to probate.

Cures baby's croup, Willie's daily cuts and bruises, mama's sore throat, grandma's lameness—Dr. Thomas' Electric Oil—the great household remedy.

CORSET STEEL SAVED HONESDALE GIRL'S LIFE.

Old Man Fired Five Bullets at Her, One Being Stopped by Steel.

A corset steel saved the life of Miss Martha Kimble, step-daughter of Mayor John Kubach, of Honesdale, on Monday when John Bauman aneccentric old citizen of that town, made her a target for five bullets from a revolver. Four of the bullets missed her, but the fifth broke the corset steel in two parts. Miss Kimble was taking a boat ride on the Lackawaxen river, when Bauman came sauntering along the bank. He is seventy years old and was intoxicated. Without any warning he drew a revolver from his pocket and fired five shots in rapid succession at Miss Kimble.

Miss Kimble was practically uninjured by the one bullet that struck her. She ran to her home and Chief of Police J. J. Canivan and Detective N. B. Spencer went looking for Bauman. They found him at home quite unconcerned.

A hearing was held before 'Squire W. H. Ham, who committed Bauman to jail. Bauman has a son in the Danville asylum.

DEEDS RECORDED.

With Location of Lands, Names of Parties and Consideration.

Troy Borough.—June 9, 1909. Willard D. Morse and wife to Lydia L. Case; lot, $875.

GEORGE H. RICHARDS IS NOT DEAD BUT BURIED.

Veteran Takes Action to Have His Name Removed From Tombstone

George H. Richards, an old Civil War veteran of Overton, whose name by some mistake was placed with his regiment, company and rank on one of the tombstones erected over the soldier dead in the cemetry at Gettysburg, has begun another effort to have his name removed. He wants to be buried in only one cemetery when he dies, he says.

He made the discovery that he was officially dead and unofficially alive many years ago, but all sorts of red tape have so far blocked his efforts to have his name removed from the tombstone. He is now anxious to have this done without further delay, as he is old and does not expect to live a great many years longer.

MILAN STATION BURNED.

Building and Contents Went Up in Smoke on Wednesday Morning.

The Lehigh Valley station at Milan burned Wednesady morning, the fire breaking out about 1 o'clock. The building was entirely destroyed together with its contents, the only property saved being a few records from the office. The ticket case and a quantity of freight and express matter went up in smoke. The fire was discovered by Mrs.. Soper, who lives near the station, being awakened by a bright flash, resembling lightning. She gave the alarm but the fire had gained such headway that by the time help arrived nothing could be done. It is thought that the fire originated from sparks from a passing locomotive.

Remarkable Family.

In 1840, John Saxe, a native of Germany, settled in South Wilmot when that section was a great wilderness. After getting his cabin erected to provide the wants of his family, his only means besides his strong arms, consisted of 50 cents in money. However, in the course of time, by industry and frugality he became a man of means. Mr. and Mrs. Saxe were the parents of twelve children, seven sons and five daughters, and it is a most remarkable fact that all these children grew up and are still living. The oldest of these is 73 and the youngest 49. The sons are all men of powerful strength and excellent physique, their combined weight being three-quarters of a ton. Lewis leads, tipping the beam at 423 pounds. The father died at the age of 74 and the mother at 63 years.—Bradford Star.

Will Raise Wheat.

Says the Montrose Republican: "Many Susquehanna county farmers are preparing several acres of ground each for the raising of wheat. They figure it out that with the high price of flour they can raise their own wheat and have it ground, and if they have more than they can use it can be sold at a good profit. The best of wheat can be raised in this county and it is usually a fair yield to the acre. Farmers generally would do well to put in a few acres on trial at least."

Busy Times at Toy Factory.

The Hawes-LaAnna toy factory is enjoying an unusually large run of work, and many orders are being received every day. Car load after carload of lumber is received daily at the factory, to be converted into toys and novelties.

SOCIAL NOTES

Says the Laceyville Messenger: A happy surprise awaited Mrs. Bruce Pickett, Monday last—her birthday. Among those present at the festivities were: her mother, Mrs. W. F. Thompson and children, Charles and Mary; Miss Virginia Eilenberger, Mrs. Helen Thompson and Daniel Robinson of Towanda; Frank and Robert Baker of Rummerfield; Mrs. C. E. Lamphere of Myersburg; Mr. and Mrs. E. R. Borroughs of Waverly, and several relatives living in Laceyville. A fine dinner was served, an air of sociability prevailing and a very pleasant day had by Mrs. Pickett, her family and visitors.

♀♀♀

Tuesday evening a surprise party was tendered Miss Charlotte Mouillesseaux at her home the occasion being her twenty-first birthday. She was presented a beautiful china dinner set. Music and dancing were the many features of enjoyment, after which dainty refreshments were served. This is the second surprise given in honor of Miss Mouillesseaux within the last week. The first one on last Thursday evening was in the shape of a linen and china shower.

♀♀♀

A very pleasant feature of the "Morning Bridge Club" which was entertained by Mrs. Hulett Turner and Miss Eliza Overton Wednesday at the home of Mrs. Turner was a "tin shower" given by the members of the club for Miss Sara Jennings.

♀♀♀

The Misses Lucy Sweet and Dorothy Rosenmuller have issued invitations for a dance to be given Tuesday evening, Sept. twenty-eighth at Eagle Hall.

♀♀♀

Miss Emilie Piollet entertained Friday afternoon at Bridge complimentery to Miss Sara Jennings who was also presented with a "fruit shower."

♀♀♀

Miss Charlotte VanAuken entertained the R. T. B. club Thursday evening at her home on Second street in honor of Miss Agnes Kirwin.

♀♀♀

The Monday club of Sayre, was entertained at a picnic dinner Thursday at the home of Mr. and Mrs. John C. Piollet at Wysox.

Charter Granted.

The George H. Lancaster Co., of South Sterling, Wayne county, was granted a charter on Sept. 1. The purpose of the new company will be to manufacture concrete and do wood turning.

Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day by day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. *J. C. Ayer Co., Lowell, Mass.*

Constipation is the one great cause of sick-headache, biliousness, indigestion, bad breath, debility, nervousness. Has your doctor ever recommended Ayer's Pills to you?

Dye & Bresee Hardware Company

OPPOSITE COURT HOUSE, TOWANDA, PA.

WILL EMPLOY ARMY IN TAKING CENSUS.

Over 3,000 Enumerators to be Engaged in Pennsylvania.

An army of men will be required for taking the thirteenth census, work on which will begin April 15, next. The appointment of the supervisors is being made as rapidly as possible, the names being sent by congressmen to Director of the Census Durand at Washington.

If each supervisor outside of Philadelphia and Allegheny counties names 100 enumerators there will be 2,100 outside of the big cities. While there are 32 congressional districts in the state, the director of the census has made but 28 census districts.

The tenth district, comprising the counties of Bradford, Susquehanna, Wayne and Wyoming, in the census of 1890 had a population of 146,769. J. Andrew Wilt, Esq., of Towanda, has been appointed supervisor of this district.

Lycoming county is in the Eleventh district, not the tenth as has been published by the Williamsport papers.

COURT PROCEEDINGS.

In the case of Elery T. Hallock vs. Emma J. Hallock, an action for divorce, in which a jury trial has been asked for, the request has been withdrawn and a special master and examiner will be appointed to take evidence in the case.

The case of Frank B. Lyke vs. the Lehigh Valley Railroad company, an action for damages, has been continued until the next term of court. At a former trial of this case, Mr. Lyke was given a verdict of $5,000 which the court cut down, the reduced judgment being refused by the plaintiff, whereupon a new trial was granted.

The following cases set for trial this term, have been settled: Mary E. Treadwell vs. Pell Smith and Nellie E. Smith; J. A. Kilmer vs. C. A. Haines, et al; John Allen vs. Lehigh Valley R. R. Co.

Will Have Good Apples.

State Economic Zoologist H. A. Surface has branded as misleading reports that the entire apple crop of Pennsylvania is a failure this year, and that 95 per cent. of that crop is so wormy or otherwise defective as to be absolutely worthless and fit for nothing short of food for hogs. "The yard does have some foundation," he said, "but it is working a great injustice to the orchardists. The truth of the matter is that in 95 per cent. of the orchards the crop is a total failure, which is vastly different from 95 per cent. of the crop being unfit for use. The real horticulturists the man who grows apples as a business and takes care of his trees—will reap a harvest in fruit and money this year.

Waverly Youth Missing.

Says the Waverly Free Press: "Arthur Ward, a fine young man, some 18 or 20 years of age, who has for some time peddled milk about Waverly for his father, J. W. Ward, who lives on what was formerly known as the Kennedy farm, north of the village, disappeared Thursday night in a very mysterious manner. During the day he had been working for a neighbor, but told the man he could not help him today. Soon after six o'clock, he started for home, and up to 2 p. m. Saturday no further trace of him had been found. He was a very quiet young man, most exemplary in his habits and his parents can give no reason for his disappearance. Of course, they are very much worried and anxious to know what has become of him."

JUDGE AND MRS. MACFARLANE PRESENT SPLENDID MEMORIAL

Pittsburg Hospital for Children Given Fresh Air Pavilion.

Says the Pittsburg Dispatch: "By the generosity of Judge and Mrs. James R. Macfarlane the Pittsburg Hospital for Children will soon have a very useful addition in the form of a fresh air pavilion for tubercular patients. It will be a memorial to one of their children who died several years ago.

"Work began a few weeks ago, and the pavilion is now nearing completion. The hospital has been in need of suitable accommodations for tubercular patients, and the gift came at a very opportune time. The pavilion is of the one-story bungalow type and large enough to accommodate 36 beds. When completed it will have cost about $3000. Properly constructed pavilions are now considered much superior to tents for persons suffering from tuberculosis."

Judge Macfarlane, who is a native of Towanda, is a brother of Mrs. Wm. Little and Mrs. E. J. Angle and the late E. O. Macfarlane of Towanda.

TRAVERSE JURORS.

Gentlemen Who Are Deciding Cases in Common Pleas Court This Week.

The following citizens will decide cases in common pleas court this week: Charls H. Allen, Towanda; S. G. Ansell, Smithfield; Timothy Brennan, Monroe township; Samuel J. Brasted, Wells; L. J. Ballard, Troy; Harry D. Burham, Ridgebury; F. W. Bullock, Troy township; Richard Cummiskey, Albany township; Eugene Cole, Canton township; H. C. Donovan, Tuscarora; Jomes Dunn, North Towanda; J. E. Eastman, Orwell; C. S. Gay, Sayre; S. C. Gernert Columbia; A. N. Hall, Towanda; James F. Hees, Towanda; Andrew Johnson, Towanda township; Frank Kellogg, Albany; James M. Linderman, Troy; F. E. McGovern, Rome; Martin Maley, Canton township; James Mahood, Troy; John J. Moon, Standing Stone; L. T. McFadden, Canton; G. W. Matthews, Sayre; Stephen O'Neil, Athens; Hiram Norton, Albany; Patrick O'Shea, Sayre; J. S. Riley, Warren; G. L. Roberts, Sayre, J. C. Sullivan, Ridgebury; A. C. Shook, Troy; C. H. Satterlee, Athens; Allen Shepard, Wells; Foster R. Strong, Columbia; Thomas Vought, Litchfield; W. Frank Waters, Athens; Charles C. Wheeler, Burlington township.

Tuberculosis Exhibit.

The State Department of Health Tuberculosis Exhibit will be exhibited at the Inter-State Fair at Athens, on Sept. 20th to 25th. This exhibit consists of models of the cottages, rest pavillions and tents in use at the State Sanitarium, Mont Alto, Franklin county, where over seven hundred consumptives are being cared for at the state's expense; also photographs, maps, charts, etc, all of which are both interesting and instructive. Lantern slide lectures are given each evening showing views of sanitarium life at Mont Alto, life in the city slum districts and others of interest. The exhibit is in charge of Chas. L. Fry and C. H. Cobaugh of the State Health Department, who explain the different exhibits and give all necessary information. Admission free to exhibit and lectures. Dr. Samuel G. Dixon, State Health Commissioner, is sending this exhibit over the state for the purpose of showing the people what is being accomplished by the department in fighting the great white plague which is destroying ten thousand lives in the state annually and also teach that tuberculosis is a preventable as well as a curable disease.

TOWANDA BOARD OF HEALTH HEARS REPORT ON WATER.

State Chemists Have Analyized Samples of Water.

At a meeting of the Towanda Board of Health Tuesday evening, Dr. S. M. Woodburn submitted a report from the State Department of Health giving the result of the analysis of samples of the water being furnished Towanda by the Towanda Water company.

Ralph E. Irwin, assistant state engineer, who visited Towanda some time ago collected five samples of water, three from the Towanda reservoir, one from the tap in the Ward house and the other from the tap at Meredith's Bottling works. The first sample from the reservoir shows 3,300,000 bacteria per c. c., and 150,000 B. coli, per c. c.; the second showed 3,000 bacteria and 133 coli; while the third sample from the reservoir showed 5,000 bacteria and 300 coli. The sample taken at the Meredith Bottling Works showed 750 bacteria and no coli; and the sample taken at the Ward house showed 390 bacteria to the C. C. and no coli.

The samples taken from the reservoir were secured from three different sections, one from the inlet, one from the outlet, and the other from the lower left hand corner as the reservoir is approached.

The bacteria which showed so strongly are not considered very harmful, but the coli which is animal sewage is considered dangerous to health.

Since the samples reported on above were taken the Water company has placed sulphate of copper in the reservoir for the purpose of purifying the water, and more samples have been secured since this treatment of the water, and sent to the State Department for analysis.

Entries For Foot Race.

So far eleven athletes have entered the three mile race to be held at the Bradford county fair at East Towanda next Thursday, Sept. 30. Nearly all of these runners took part in the six mile race held in Towanda on old home day so it will be seen that they are not novices, but experienced sprinters. There are also a number of entrants for the 220 and 100 yard dashes, for which nice cash prizes will be given. These races will all take place on Thursday the "big day" of the fair. The 100 yard dash will be first, then the 220 and the three mile event will be last. Seventy-five dollars in cash will be split among the winners in the three events. Runners intending to take part, should send their name and address to The Review or before Saturday, Sept. 25.

Chief Arrested Constable.

Chief of Police Walsh of Sayre, Thursday afternoon arrested William Ritz, high constable of Sayre borough, while the latter was trying to arrest another man. The charge against Ritz was that he was disturbing the peace in scuffling with the man whom he was attempting to arrest. The police chief took the high constable before Justice Carey, who told them to call it quits and both go about their respective duties.

The fellow who fails never shouts "I'm a self made man."

DATES FOR FARMERS INSTITUTES IN THIS COUNTY

County Chairman Erwin Platt Names Places and Dates of Five Meetings

Erwin Platt of Wysox, member of the State Board of Agriculture from this county, and chairman of institute work, has selected the following five places and dates for the holding of farmers' institutes in Bradford county this Fall and Winter under the auspices of the State Board of Agriculture:

Orwell, Nov. 29, and 30.
Litchfield, Dec. 1, and 2.
East Smithfield, Dec. 3, and 4.
Troy, Dec. 6, and 7.
West Franklin, Dec. 8, and 9.

The following lecturers will be present at each meeting: Prof. Franklin Menges of York, Pa.; D. H. Watts of Clearfield, Pa.; and Homer Jackson of Cambridge, Ohio.

Annal Meeting.

The annual meeting of the Historical Society of Bradford county will be held at its rooms in Towanda on Saturday September 25, at 2 p. m. Reports of officers and committees for the year will be submitted and the election of officers for the coming year will take place. Every member should be present and participate in the election of officers. The "Annual No. 3" will be ready for distribution to members at this meeting. J. C. Ingham, president; J. Andrew Wilt, secretary.

Itch! Itch! Itch!—Scratch! Scratch! Scratch! The more you scratch the worse the itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All druggists sell it.

Small ads pay.

FISH DYNAMITER LOSES HAND WHEN CHARGE EXPLODES.

Perry Tallady of Meshoppen, Comes to Grief While Using Dynamite.

Perry Tallady of Meshoppen, Monday forenoon while dynamiting fish in the river near Scottsville Island, lost his right hand and part of his forearm by the premature explosion of a charge of dynamite.

Tallady was out of the river alone, and was preparing to drop a charge of dynamite in the water. The charge exploded before he had succeeded in getting it over the side of the boat, and as a result, Tallady was badly injured.

He was taken to the Packer hospital on train No. 1, where it was found necessary to amputate his right hand below the elbow. While badly injured and suffering considerably from shock, the doctors believe he will recover.

Fine Walk.

One of the finest stone walks in Towanda is being laid in front of the Christ Church property on Main street. The Quarry Glen Blue Stone company is furnishing the stone and doing the work of laying. The Macafee Concrete company of Athens, is laying the cement drive ways. The walk and driveway which cost over $500, will add greatly to the appearance of the handsome church.

Old Furniture.

Get a small can of L. & M. Home Finish Varnish all ready for use. Clean the furniture with soap and water and wipe dry. Then apply one coat. It will make old furnitpre new at a cost of almost nothing. Sold by Spalding Hardware Co., Towanda.

COURT DISMISSES JURORS TO CUT DOWN EXPENSES.

Cases Not Ready For Trial and Judge Sends Jurors Home.

Judge Fanning Tuesday discharged all the jurors summoned for this week's session of court except those engaged on the Lyke case which is now on trial. During the common pleas court for the September term six cases have been settled, and three continued on account of the attorneys not being prepared to go to trial.

The case of Calvin Cole vs. the Lehigh Valley Railroad company, an action for damages, was scheduled for trial this week, but report was made that some of the attorneys were not ready, whereupon the court without further consideration continued the case and dismissed the jurors. In doing this Judge Fanning stated that he did not propose to keep jurymen on hand at the expense of the taxpayers simply to await the convenience of the attorneys.

Record Crops.

George Smith holds the record for crops in Wilmot township this year. Having just finished threshing, his crops show as follows: Oats, 503 bushels; rye, 250 bushels; wheat 70 bushels, making a total of 823 bushels, and beating Mr. Potter, his nearest rival, by 200 bushels, while Mr. Baggott was third with 280 bushels of oats, 210 bushels of rye and 40 bushels of wheat.

A man who slips on a banana peeling, then arises and without waste of words or ruffled temper, removes the peeling so that others may not slip on it, is a Christian.

SERIOUSLY BURNED BY PAN OF BOILING FRUIT.

Miss Effie Cummings of Liberty Corners, Meets With Accident.

Miss Effie Cummings, living alone in a house at Liberty Corners, was terribly burned with boiling fruit Monday evening. She is subject to epileptic spells, and while suffering with one of these she was scalded. She had been canning fruit nearly all the afternoon, and about nine o'clock in the evening, started to take the last pan of peaches from the stove where they were boiling.

Just as she picked up the pan, she was seized with an epileptic attack, and fell over backwards, the boiling fruit striking on her body and face, causing terrible injuries. Her screams brought assistance, and Dr. O. H. Rockwell of Monroeton was hastily summoned, and dressed her injuries.

The unfortunate woman has no near relatives nor means of support, and Tuesday the county commissioners had her taken to the county house at Burlington where she will be given good care.

Deputy Constable Appointed.

The court has appointed C. W. VanDyke deputy constable of Ulster township. D. Soper is the constable, but as there are two districts, it has become necessary to have an officer in each district, and Mr. VanDyke will serve in the second district, while Mr. VanDyke will be in the first.

Has Some Friend Told You of Foods Shot from Guns?

Folks who eat Puffed Wheat and Puffed Rice are sorry for those who don't.

So they tell of these foods to others, and the others tell others. That's how the use is spread.

Please ask some housewife to tell you how her folks enjoy these foods.

Or try them yourself. One package of Puffed Wheat, at a cost of ten cents, will reveal a new delight.

You will know, for the first time, how good cereals can be made.

You will see grains that are crisp and nut-like, puffed to eight times their natural size.

You will see grains made four times as porous as bread—ready to melt in the mouth.

You will see grains made digestible—with every starch granule exploded.

And you will see foods that children like better than any foods you know.

Puffed Wheat—10c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

Puffed Rice—15c

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.

HENRY SPENCER HAS CLOSE CALL FROM DEATH.

Drank Carbolic Acid in Mistake For Brandy While Ill.

Henry C. Spencer, a well known farmer living near Mountain Lake, had a narrow escape from death Friday afternoon, when he took a drink of carbolic acid in mistake for brandy while suffering with cramps. Prompt assistance saved him from death.

Mr. Spencer, accompanied by his son, Frank Spencer, came to Towanda Friday to do some trading. Mr. Spencer had been suffering with dysentery and cramps for a few days, and before starting for home procured a small bottle of brandy which he placed under the seat of the wagon. He had also purchased a quantity of carbolic acid to be used for disinfecting purposes about the house and farm, which had also been placed under the seat in the wagon.

While enroute home Mr. Spencer was taken with cramps, and to relieve his suffering decided to take a sip of the brandy which had been purchased for medicinal purposes. The brandy and carbolic acid were both in about the same sized bottles, and both were wrapped in paper. Mr. Spencer reached under the seat of the wagon, pulled out one of the bottles and tearing the wrapper away from the top, pulled the cork and took a swallow.

He realized at once that he had made a mistake, and succeeded in spitting some of the fiery fluid from his mouth. His son turned the team about and drove to the home of Frank Gregg on Towanda hill, and a large quantity of raw eggs were given Mr. Spencer to relieve his suffering. After administering this remedy, a start was made for Towanda, and the horses were being drove at a rapid pace when J. Wayne Scoville driving his auto was met, and he turned about and brought Mr. Spencer to Towanda in quick time.

The suffering man was taken to the Tidd house where he was attended by Dr. Francis Chaffee, and by evening he had recovered sufficiently to be able to return home. His mouth and throat were bably burned.

It is estimated that about two drams of the acid went into Mr. Spencer's stomach, a sufficient quantity to cause death. The raw eggs given to him at the Gregg home saved him, as he would not have lived to reach Towanda, had it not been for the swallowing of the eggs.

Swimming Hole For Baptismal.

Rev. G. G. Burroughs, Baptist pastor of Jackson Summit and West Jackson charge, baptised eight converts to that faith last Sunday in Millerton. The severe drouth made it difficult to locate a pool of sufficient depth to conform with Baptist reuirements in the way of immersion, but it was finally found here, the boys' swimming hole being utilized for the purpose.—Millerton Advocate. Rev. Mr. Burroughs formerly resided in Towanda, where he is quite well known.

Register's Office News.

The will of Burr Wood, late of the Township of Armenia, deceased admitted to probate. Will of Valentine Saxton, late of the Township of Granville, deceased admitted to probate and letters testamentary granted to Polly A. Saxton. Will of Nicholas Potter, late of the Township of Troy, deceased admitted to probate and letters testamentary granted to H. K. Mitchell. Will of Amanda M. Gemmell, late of the Borough of Hughsville County of Lycoming, deceased, admitted to probate.

Their Red Letter Day.

The Grange National Bank is celebrating their "Red Letter Day." They have reached the $300,000 mark in deposits, which was originally their limit. The bank is only two years old, but in that time has paid two annual dividends of six per cent. each, increased the deposits to $300,000 and over, and opened up 1,075 savings department accounts. This is a record of which the Grange Bank and its friends feel mightly proud, and well they may.— Mansfield Advertiser.

No Cause for Action.

At Ithaca, Tuesday, the jury in the case of Wm. Stowell, suing the Lehigh Valley for $10,000 damages for the loss of both legs, which were cut off at the Seneca street crossing there returned a verdict of no cause for action. The prosecution contended that the train stopped and the conductor put Stowell off there. The defense was that Stowell was drunk and the accident was the result of his own carelessness while in that condition.

Tuberculosis Exhibit.

The State Department of health has a tuberculosis exhibit at the Inter-State fair at Athens this week. Capable demonstrators are in charge and there will be short talks illustrated by accompanying lantern slides, giving the methods employed in the care, treatment and prevention of tuberculosis.

Robinson Waived Hearing.

Wirt Robinson was arraigned before 'Squire Meredith yesterday and to the charge of burglary pleaded not guilty, waiving hearing for his appearance in court. He was remanded to jail till such a time as the court shall fix the amount of bail.

Baches Lower Record.

At the Westfield fair, Friday Bache Hose Co. of Wellsbore, defeated the Crystals, of Corning, in a 200-yard hub and hub race, in 21 seconds flat, clipping one-fifth off the world's record, which the Baches held.

SABBATH SCHOOL WORKERS MET AT MONROETON.

Annual Sessions of District Association Held on Tuesday of Last Week

The annual meeting of District Sabbath School Association was held in the Monroeton M. E. church on Tuesday of last week, afternoon and evening sessions being held. Shortly after 2 p. m., the presiding officer, W. J. Bresee of Towanda, called the meeting to order. Devotional exercises consisted of Bible reading by Rev. W. H. S. Loller and prayer by Rev. W. P. Miller.

In response to the roll call by the secretary, Mrs. F. E. Mingos, it was found that there was a representation of thirty from the eleven schools in the district, which number was augmented at the evening session by a large company from the schools in Towanda.

In a brief address, Rev. W. P. Miller explained to his audience the reasons for the assembling of the body, emphasizing the fact that a large majority of Christians at the present day are those who gave their hearts to God in the Springtime of life.

The important subject, "The Teachers' Preparation," was presented and its necessity ably defended by Dr. E. M. Mills of Towanda, who impressed upon his auditors the great necessity of a careful, thorough preparation necessary to properly present to a class in the Bible schools the truths taught.

Mrs. W. W. Rooker, who represented the Towanda M. E. S. S., and is regarded as an eminently successful teacher of boys, read a paper on "Our Boy," dealing with such practical theme in a careful, studious manner and giving many suggestions from her own experience from which great profit might be gained in reference to the "Boy Problem."

The next speaker introduced was Mrs. Chas. F. Bullard of Elmira and in delightful manner she interested the association in the "Cradle Roll," which, although a comparatively novel scheme, has been the means of accentuating the great truth, "A little child shall lead them."

Vocal music of a high order was furnished by the local M. E. choir and formed a pleasing, helpful feature of the sessions, the solos by Miss Neva Walter, a talented vocalist of West Pittston, being thoroughly enjoyed.

The evening session opened at 7:30 by devotional exercises. Mrs. Marion Schmauch of Towanda impressed a large enthusiastic audience with the thoughts in a carefully prepared paper on the subject of "Training Class Work." She gave a logical contribution to the system which is meeting with general approbation.

The closing feature of the sessions was an address on "A Day in Jerusalem" by Dr. Charles E. Mogg, who for fifteen consecutive years has been the pastor of a M. E. church in Wilkes-Barre. He held his audience in rapt attention while he portrayed scenes in Holy City and took his hearers in imagination to the place, describing buildings, personages and customs in a manner which left a vivid impression on the minds which appreciated his lecture.

The next semi-annual meeting of the Association will be held at Wysox in March, 1910.—Monroeton Enterprise.

How Could They Give Milk?

A nearby resident whose two cows running in pasture were giving next to no milk, finally confined them in a comfortable stable and fed them on weeds, corn stalks and whatever else came handy, with a result that inside of a week, with no more grain, their milk production had increased from 100 to 150 per cent. Between fighting flies and hunting something to eat they had worn themselves out in the pasture and had no vital force left for milk production. This man's experience might well be a pointer to others, whose pastures are ample enough in extent but through drouth afforded little feed. Soiling under such conditions, certainly pays.—Troy Gazette Register.

Inter-State Fair Opened.

The Inter-State fair at Athens opened Monday and today will be in full swing. Everything is in readiness and the big show is complete and ready for inspection. The attendance yesterday was far greater than expected and great throngs are expected during the remainder of the week. Over 5,000 people visited the grounds on Sunday. Sixty fast horses are stabled on the ground ready for the races. The flying machine has arrived and daily flights of one mile will be made. There are hundreds of attractions, all worth seeing.

Ham For Breakfast.

In the wreckage at Ulster on Sunday night was a carload of hams, and as they lay scattered about the ground a number of citizens of Ulster took advantage of the opprotunity and carried a few of them home. Monday morning T. B. Shaffer went to Ulster and found eight men who were guilty, and they will al be arraigned before Justice Carey on Tuesday.—Athens News.

Fallen Girl Claimed.

Ensign and Mrs. Mars who are in charge of the Salvation Army work in Towanda, have rescued a girl from a life of shame to which she plunged after straying from the narrow path of virtue. She has been taken to the county home at Burlington where she will remain for the time being.

Flying Machine at Athens.

The management of the Inter-State fair association has closed a contract with the Glenn Curtiss company for an exhibition of flying in an aeroplane each day of the big exposition.

SKIDDING OF AUTOMOBILE CAUSED FATAL CRASH.

Coroner Ascertains Reasons of Collision at Syracuse.

The skidding of the automobile is said to have caused the terrible collision at Syracuse with a street car Tuesday of this week in which Mrs. James McKay of Canton was killed and her husband James McKay and Mr. and Mrs. Timothy Conklin of Troy, were injured.

The stories of witnesses vary as to who was at the steering wheel of the automobile, Mr. McKay or his wife. The coroner found during the inquest that the motor car skidded as it was turned out of the way of the street car, and threw the heavy machine directly in the path of the approaching car.

Mr. Conklin, who was not hurt so seriously as first reported, stated to C. H. Turner, manager of Mr. McKay's Park Hotel in Canton, who went to Syracuse that the machine was not being driven over ten miles an hour when the collision occurred. Before entering the city they had been driving faster which accounted for the speedometer registering 32 miles when examined after the accident. It had not been turned back, Conklin said. Mr. and Mrs. Conklin are expected to recover, but Mr. McKay's condition is critical with the chances much against him.

Mrs. McKay was thirty-eight years old and her husband forty-two. She is survived by her husband, parents, John and Sarah Campbell, and a brother and sister, Clarence and Anna Campbell, all of Canton.

The automobile made fast time between Canton and Syracuse, the 152 miles being negotiated in about eleven hours, including stops and whatever delays may have been occasioned.

The coroner said no blame attaches to the street car employes, as the car was proceeding at a moderate rate and could not have been stopped in time to prevent the accident.

Unique Board of Trade.

The Williamsport Board of Trade Bulletin, a copy of which we have just received says: "There are numerous Boards of Trade with large memberships; memberships which bubble over with enthusiasm at the time of their annual banquet; memberships which bubble over any projects that call only for kind words and hot air; memberships which fail to bubble when it takes cash from the individual member to make good. And that's where the Williamsport way differs: For, as a Board of Trade, it don't banquet; and, as a Board of Trade, it don't require the social feature as a speciality and prime attraction to interest and hold its membership; for, while the social feature is an attractive and important one in Williamsport, its Board of Trade is based on public spirit and patriotism, is conducted in accordance with business institution whose business is to get results. And when the opportunity comes to make good, that's where Williamsport does its Board of Trade bubbling, and it keeps on bubbling, until it's good , and until the job is done."

New Engines to Be Built.

Says The Sayre Times-Record: "All materials for the boilers of the new engines to be erected in the Lehigh system shops has been delivered. Four new engines are to be erected at once. They are to be known as the "900 class" and will be numbered from 900 upward. The engines are to be a distinct change from the present type of engine in service on the Lehigh. They will have much the appearance of the soft coal burning engines now in service on the Lackawanna. They are to have four drivers on each side, are to be equipped with "monkey" motion, and the cabs are to be placed on the rear ends of the boilers. On account of the change in the position of the cabs it will of course be necessary to make the fire boxes much narrower than on the "Mother Hubbard" engines. The new engines will be constructed to burn soft coal exclusively and they will be used in the freight service."

Governor Hanly At Athens.

Ex-Governor J. Frank Hanly, of, Indiana, who is making a tour of Pennsylvania this autumn under the auspices of the Pennsylvania Anti-Saloon League in the interest of local option, will address a great Local Option Mass Meeting in the rink at Athens on Oct. 2, at 8 o'clock. Governor Hanly, who in January last, closed an unusually successful term of four years as Chief Executive of the Hoosier State, is easily the foremost local option advocate on the American platform.

Will Serve Meals at Fair.

The ladies of the Methodist Episcopal church of Towanda will have charge of the dining hall at the Bradford county fair, Sept. 28, 29, 30 and Oct. 1 and will serve breakfast, dinner and supper. Preparations are being made to accommodate all who will favor them with their patronage. Good meals, good service and low price; good natured waiters in attendance. Everybody come and have a good meal and a happy half hour all for 25 cents.

Laquin Drubs Hughesville.

The Laquin baseball team on Saturday at Laquin gave the Hughesville team an awful drubbing, splashing them all over with whitewash, the score being 14—0. The batteries were: Rockwell and Percival for Laquin, and Wiley and Morse for Hughesville. Rockwell struckout eight batsmen while Wiley made three fan the air.

ANOTHER "SPIRIT WELL" TO BE DRILLED AT GAINES.

Elmira People Still Have Faith in Spiritualistic Revelations.

Mrs. Day, an Elmira woman, and a number of other persons who are believers in spiritualism, are arranging to drill another deep well in the Gaines field. About a year ago the same people started a well that was drilled to a depth of 4,740 feet and was then plugged by a fishing job. The hole was eight inches in diameter from top to bottom.

It is the intention of Mrs. Day to put in an extremely heavy drilling outfit for the well that is soon to be started. She wants to drill to a depth of 5,400 feet. A heavy oak rig, a 40-horse power boiler, a 20-horse power engine and six inch rig irons will be portions of the equipment. Everything necessary has been ordered and the work will soon be started.

Mrs. Day and her associates firmly believe that a productive oil bearing sand will be found at a depth of 5,400 feet. It is said that they have information from the spirit world that leads them to believe that such a formation will be found by the drill. If a depth of 5,400 feet is reached the well will prove an important test for Potter County as well as for Northern McKean and Allegany Counties. Its progress will be watched with great interest by oil men generally.

TOWANDA'S FINE OUTLOOK.

What the Williamsport Sun Has to Say About the Power Dam Project

In commenting upon the dam building project, Elmer Person, the gifted editor of the Williamsport Sun, has this to say:

"Towanda's prospects for the proposed power dam in the river near that town are very bright, made so by the favorable action of the state authorities upon the matter of a charter for the big enterprise. The Review, which, ever since the first step toward the consummation of the project, has pointed out the great public benefits that must accure therefrom, now enthusiastically proclaims the fact that the prize is within reach. The Review's enthusiasm alone ought to be an incentive for the community to enthuse, for the power project does have about it those elements of assurance that index a great forward step, industrially, for Bradford's pretty capital. Williamsport joins in congratulation over the outlook, and trusts that the project shall not only be successfully launched, but that the public benefits therefrom shall exceed even those already calculated upon."

Ennis Returns.

Charles Ennis, operator in J. R. McCracken's stock exchange, who disappeared some weeks ago, taking with him, it is alleged, a large sum of his employer's money, returned to Towanda Sunday. In an interview with Mr. McCracken, he stated that he was drugged and robbed in Buffalo the night after he left Towanda, and that when he revived all he had was $14 and a ticket for St. Paul, Minn. He went to that city, and then started back, making his way on freight trains, being without funds. It took him three weeks to work his way from St. Paul to Towanda. He has not been arrested, and a settlement will probably be made.

After the Picture Men.

Factory Inspector George Nape, of the Scranton district, which comprises Lackawanna, Wayne, Pike and Susquehanna counties, has just completed an investigation of the moving picture theaters in his district. There are 56 moving picture houses in the district and the inspector has found that not one of them has complied with the statutes regulating such places of amusement. All have been notified to comply with the law or be subjected to prosecution.

Mildred Bank Directors Meet.

The directors of the Mildred bank held a meeting at Mildred Tuesday evening, the entire board being in attendance. John B. Henning, of Mehoopany, was elected cashier. Mr. Henning has been teller in a bank at Tunkhannock four years and is highly recommended. A committee was appointed to supervise the erection of a bank building. The building will be fire proof and on the latest and most improved plans for a country bank.

James McKay May Recover.

The condition of James McKay, who was terribly injured in an automobile accident near Syracuse a few days ago is much improved and it is said if no complications result that he has a good chance of recovering. The body of his wife who was killed in the accident was taken to Canton Friday afternon and burial was made on Sunday. Services were held at the Park Hotel and interment at Wetona Mr. and Mrs. Conklin who were also injured will both recover.

Will Go to Jury Today.

The taking of evidence in the Dorrance—Jennings case was completed yesterday, and the points of law submitted. This morning the attorneys will make their arguments, and the court will charge the jury, closing the case. It is expected the case will go to the jury before the noon recess.

Quoit Challenge Accepted.

The Athens Quoit club has accepted the challenge of the Towanda Quoft club to wrest the championship of the county from that club by pitching a series of games, three to be pitched in Athens, three at the county seat and three on neutral grounds.

WAVERLY MAN CHOKED TO DEATH ON MEAT.

W. O. Tichnor Meets Tragic Fate While at Dinner on Saturday.

W. O. Tichnor, a well known farmer,, 68 years of age, living just across the Chemung from Waverly, while eating dinner at his home Saturday noon, suddenly gasped once or twice and fell from his chair to the floor. The members of the family, much frightened, sent a boy with a horse on a run for Dr. Harnden, and the doctor was taken there with the horse on a run.

When the doctor reached the home the family said the man was dead before the boy had gone out of sight. The physician in looking for the cause of death, pulled from the man's throat a piece of meat some three inches long, 1½ inches wide and half an inch thick. This had completely closed the wind pipe and the man had died very quickly.

The doctor states that if someone had pushed the meat down a half inch further the windpipe would have been uncovered and the man's life saved, but so thoroughly was the opening closed that he was unable to help himself.

Mr. Tichnor is survived by his wife and several sons and daughters, some of them married.

Wirt Robinson Arrested.

Wirt Robinson, who has been wanted for his part in the stealing of shoes from a freight car in the Towanda yards, was landed at his home on James street Sunday afternoon and is now in the county jail awaiting a hearing on the charge of burglary. Robinson was captured by Chief Miller Special Officer Arthur Watson and J. Monroe Ayers. The Robinson home was surrounded and the wanted man was given no opportunity to outrun the officers as he had said he would do. Robinson is alleged to have been implicated with Reuben Heeman in the shoe stealing business. Heeman admits his part in the deal and is now waiting to plead guilty before Judge Fanaing. Robinson has had a checkered carreer, having served time in the penitentiary.

Not Dead By Any Means.

The Wellsboro-Mansfield trolley project is not dead nor even sleeping. The Agitator says that much of the right of way has been secured. Stock was placed on sale last week and the company is meeting with substantial encouragement. One of the biggest corporations in the country recently offered to take 51 percent of the stock but were refused. They then offered to aid in any other possible way and also to help in extending the line to Troy.

Judge Purdy's Will.

The will of the late Judge George S. Purdy of Honesdale, shows that he left an estate valued at about $100,000. To his wife he left the residence and personal property and $20,000. The balance is left in trust, the income going to his wife, coupled with certain restrictions. The Honesdale Presbyterian church was bequeathed $1,000 and what remains after the death of his wife is to be divided equally among his nephews and nieces

Jesse Allen is Measuring the Roads.

Jesse Allen, one of the busiest men in Wysox township, is now engaged in measuring the roads in that township, doing the work for the township supervisors. The new road law requires that the roads in each township be measured, and this is what Mr. Allen is doing. He has an odometer attached to his wagon drives over the roads keeping careful record of each mile reeled off.

Overton Lady Injured.

While going to church at Overton Sunday morning the horse driven by Charles Kester, of Forks, became frightened at a motor cycle and upset the carriage throwing Mr. and Mrs. Kester out and injuring Mrs. Kester quite seriously Mr. Kester received some slight bruises.

Money in Fish.

Edward Rockwell of West Bridge street, while fishing in the Susquehanna river Friday, caught a perch weighing two and a half pounds and when he dressed it, he found a penny in the stomach. The penny bears the date of 1881. The perch is one of the largest of this species of fish to be caught in this vicinity in many years.

Lyke Case on Trial.

The case of Frank B. Lyke vs. the Lehigh Valley railroad company an action for damages, was commenced in common pleas court Monday morning. D. C. DeWitt and W. P. Wilson are the attorneys for Mr. Lyke while Wm. Maxwell represents the railroad company.

Auditor Appointed.

W. C. Sechrist appointed auditor to report upon exceptions to the final account of the executors in the estate of Jemima B. Young, late of the Township of Springfield, deceased and to make distribution of the funds in the hands of the executors.

Small ads pay.

PROPOSED AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THIS COMMONWEALTH FOR THEIR APPROVAL OR REJECTION, BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

A JOINT RESOLUTION

Proposing amendments to sections eight and twenty-one of article, four, sections eleven and twelve of article five, sections two, three, and fourteen of article eight, section one of article twelve, and sections two and seven of article fourteen, of the Constitution of Pennsylvania, and providing a schedule for carrying the amendments into effect.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following are proposed as amendments to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:—

Amendment One—To Article Four, Section Eight.

Section 2. Amend section eight of article four of the Constitution of Pennsylvania which reads as follows:—

"He shall nominate and, by and with the advice and consent of two-thirds of all the members of the Senate, appoint a Secretary of the Commonwealth and an Attorney General during pleasure, a Superintendent of Public Instruction for four years, and such other officers of the Commonwealth as he is or may be authorized by the Constitution or by law to appoint; he shall have power to fill all vacancies that may happen, in offices to which he may appoint, during the recess of the Senate, by granting commissions which shall expire at the end or their next session; he shall have power to fill any vacancy that may happen, during the recess of the Senate, in the office of Auditor General, State Treasurer, Secretary of Internal Affairs or Superintendent of Public Instruction, in a judicial office or in any other elective office which he is or may be authorized to fill; if the vacancy shall happen during the session of the Senate, the Governor shall nominate to the Senate before their final adjournment, a proper person to fill said vacancy; but in any such case of vacancy, in an elective office, a person shall be chosen to said office at the next general election, unless the vacancy shall happen within three calendar months immediately preceding such election, in which case the election for said office shall be held at the second succeeding general election. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays, and shall be entered on the journal," so as to read as follows:—

He shall nominate and, by and with the advice and consent of two-thirds of all the members of the Senate, appoint a Secretary of the Commonwealth and an Attorney General during pleasure, a Superintendent of Public Instruction for four years, and such other officers of the Commonwealth as he is or may be authorized by the Constitution or by law to appoint, he shall have power to fill all vacancies that may happen, in office to which he may appoint, during the recess of the Senate by granting commissions which shall expire at the end of their next session; he shall have power to fill any vacancy that may happen, during the recess of the Senate, in the office of Auditor General, State Treasurer, Secretary of Internal Affairs or Superintendent of Public Instruction, in a judicial office, or in any other elective office which he is or may be authorized to fill; if the vacancy shall happen during the session of the Senate, the Governor shall nominate to the Senate, before their final adjournment, a proper person to fill said vacancy; but in any such case of vacancy, in an elective office, a person shall be chosen to said office on the next election day appropriate to such office, according to the provisions of this Constitution, unless the vacancy shall happen within two calendar months immediately preceding such election day, in which case the election for said office shall be held on the second succeeding election day appropriate to such office. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays, and shall be entered on the journal.

Amendment Two—To Article Four, Section Twenty-one.

Section 3. Amend section twenty-one of article four, which reads as follows:—

"The term of the Secretary of Internal Affairs shall be four years; of the Auditor General three years; and of the State Treasurer two years. These officers shall be chosen by the qualified electors of the State at general elections. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms," so as to read:—

The terms of the Secretary of Internal Affairs, the Auditor General, and the State Treasurer shall each be four years; and they shall be chosen by the qualified electors of the State at general elections; but a State Treasurer, elected in the year one thousand nine hundred and nine, shall serve for three years, and his successors shall be elected at the general election in the year one thousand nine hundred and twelve, and in every fourth year thereafter. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms.

Amendment Three—To Article Five, Section Eleven.

Section 4. Amend section eleven of article five, which reads as follows:—

"Except as otherwise provided in this Constitution, justices of the peace or aldermen shall be elected in the several wards, districts, boroughs and townships at the time of the election of constables, by the qualified electors thereof, in such manner as shall be directed by law, and shall be commissioned by the Governor for a term of five years. No township, ward, district or borough shall elect more than two justices of the peace or aldermen without the consent of a majority of the qualified electors within such township, ward or borough; no person shall be elected to such office unless he shall have resided within the township, borough, ward or district for one year next preceding his election. In cities containing over fifty thousand inhabitants, not more than one alderman shall be elected in each ward or district," so as to read:—

Except as otherwise provided in this Constitution, justices of the peace or aldermen shall be elected in the several wards, districts, boroughs or townships, by the qualified electors thereof, at the municipal election, in such manner as shall be directed by law, and shall be commissioned by the Governor for a term of six years. No township, ward district or borough shall elect more than two justices of the peace or aldermen without the consent of a majority of the qualified electors within such township, ward or borough; no person shall be elected to such office unless he shall have resided within the township, borough, ward or district for one year next preceding his election. In cities containing over fifty thousand inhabitants, nor more than one alderman shall be elected in each ward or district.

Amendment Four—To Article Five, Section Twelve.

Section 5. Amend section twelve of article five of the Constitution, which reads as follows:—

"In Philadelphia there shall be established, for each thirty thousand inhabitants, one court, not of record, of police and civil causes, with jurisdiction not exceeding one hundred dollars; such courts shall be held by magistrates whose term of office shall be five years and they shall be elected on general ticket by the qualified voters at large; and in the election of the said magistrates no voter shall vote for more that two-thirds of the number of persons to be elected when more than one are to be chosen; they shall be compensated only by fixed salaries, to be paid by said county; and shall exercise such jurisdiction, civil and criminal, except as herein provided, as is now exercised by aldermen, subject to such changes, not involving an increase of civil jurisdiction or conferring political duties, as may be made by law. In Philadelphia the office of alderman is abolished," so as to read as follows:—

In Philadelphia there shall be established, for each thirty thousand inhabitants, one court, not of record, of police and civil causes, with jurisdiction not exceeding one hundred dollars; such courts shall be held by magistrates whose terms of office shall be six years, and they shall be elected on general ticket at the municipal election, by the qualified voters at large; and in the election of the said magistrates no voter shall vote for more than two-thirds of the number of persons to be elected when more than one are to be chosen; they shall be compensated only by fixed salaries, to be paid by said county; and shall exercise such jurisdiction, civil and criminal, except as herein provided, as is now exercised by aldermen, subject to such changes, not involving an increase of civil jurisdiction or conferring political duties, as may be made by law. In Philadelphia the office of alderman is abolished.

Amendment Five—To Article Eight, Section Two.

Section 6. Amend section two of article eight, which reads as follows:—

"The general election shall be held annually on the Tuesday next following the first Monday of November, but the General Assembly may by law fix a different day, two-thirds of all the members of each House consenting thereto," so as to read:—

The general election shall be held biennially on the Tuesday next following the first Monday of November in each even-numbered year, but the General Assembly may by law fix a different day, two-thirds of all the members of each House consenting thereto: Provided, That such election shall always be held in an even-numbered year.

Amendment Six—To Article Eight, Section Three.

Section 7. Amend section three of article eight, which reads as follows:—

"All elections for city, ward, borough and township officers, for regular terms of service, shall be held on the third Tuesday of February," so as to read:—

All judges elected by the electors of the State at large may be elected at either a general or municipal election, as circumstances may require. All elections for judges of the courts for the several judicial districts, and for county, city, ward, borough, and township officers for regular terms of service, shall be held on the municipal election day; namely, the Tuesday next following the first Monday of November in each odd-numbered year, but the General Assembly may by law fix a different day, two-thirds of all the members of each House consenting thereto: Provided, That such election shall always be held in an odd-numbered year.

Amendment Seven—To Article Eight, Section Fourteen.

Section 8. Amend section fourteen of article eight, which reads as follows:—

"District election boards shall consist of a judge and two inspectors, who shall be chosen annually by the citizens. Each elector shall have the right to vote for the judge and one inspector, and each inspector shall appoint one clerk. The first election board for any new district shall be selected, and vacancies in election boards filled, as shall be provided by law. Election officers shall be privileged from arrest upon days of election, and while engaged in making up and transmitting returns, except upon warrant of a court of record or judge thereof, for an election fraud, for felony, or for wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service," so as to read:—

District election boards shall consist of a judge and two inspectors, who shall be chosen biennially, by the citizens at the municipal election; but the General Assembly may require said boards to be appointed in such manner as it may by law provide. Laws regulating the appointment of said boards may be enacted to apply to cities only. Provided, That such laws be uniform for cities of the same class. Each elector shall have the right to vote for the judge and one inspector, and each inspector shall appoint one clerk. The first election board for any new district shall be selected, and vacancies in election boards filled, as shall be provided by law. Election officers shall be privileged from arrest upon days of election, and while engaged in making up and transmitting returns, except upon warrant of a court of record, or judge thereof, for an election fraud, for felony, or for wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service.

Amendment Eight—To Article Twelve, Section One.

Section 9. Amend section one, article twelve, which reads as follows:—

"All officers, whose selection is not provided for in this Constitution, shall be elected or appointed as may be directed by law," so as to read:—

All officers, whose selection is not provided for in this Constitution, shall be elected or appointed as may be directed by law: Provided, That elections of State officers shall be held on a general election day, and elections of local officers shall be held on a municipal election day, except when, in either case, special elections may be required to fill unexpired terms.

Amendment Nine—To Article Fourteen, Section Two.

Section 10. Amend section two of article fourteen, which reads as follows:—

"County officers shall be elected at the general elections and shall hold their offices for the term of three years, beginning on the first Monday of January next after their election, and until their successors shall be duly qualified; all vacancies not otherwise provided for, shall be filled in such manner as may be provided by law, so as to read:—

County officers shall be elected at the municipal elections and shall hold their offices for the term of four years, beginning on the first Monday of January next after their election, and until their successors shall be duly qualified; all vacancies not otherwise provided for, shall be filled in such manner as may be provided by law.

Amendment Ten—To Article Fourteen, Section Seven.

Section 11. Amend section seven, article fourteen, which reads as follows:—

"Three county commissioners and three county auditors shall be elected in each county where such officers are chosen, in the year one thousand eight hundred and seventy-five and every third year thereafter; and in the election of said officers each qualified elector shall vote for no more than two persons, and the three persons having the highest number of votes shall be elected; any casual vacancy in the office of county commissioner or county auditor shall be filled, by the court of common pleas of the county in which such vacancy shall occur, by the appointment of an elector of the proper county who shall have voted for the commissioner or auditor whose place is to be filled," so as to read:—

Three county commissioners and three county auditors shall be elected in each county where such officers are chosen, in the year one thousand nine hundred and eleven and every fourth year thereafter; and in the election of said officers each qualified elector shall vote for no more than two persons, and the three persons having the highest number of votes shall be elected; any casual vacancy in the office of county commissioner or county auditor shall be filled by the court of common pleas of the county in which such vacancy shall occur, by the appointment of an elector of the proper county who shall have voted for the commissioner or auditor whose place is to be filled.

Schedule for the Amendments.

Section 12. That no inconvenience may arise from the changes in the Constitution of the Commonwealth, and in order to carry the same into complete operation, it is hereby declared that—

In the case of officers elected by the people, all terms of office fixed by act or Assembly at an odd number of years shall each be lengthened one year, but the Legislature may change the length of the term, provided the terms for which such officers are elected shall always be for an even number of years.

The above extension of official terms shall not effect officers elected at the general election of one thousand nine hundred and eight; nor any city, ward, borough, township, or election division officers, whose terms of office, under existing law, end in the year one thousand nine hundred and ten.

In the year one thousand nine hundred and ten the municipal election shall be held on the third Tuesday of February, as heretofore; but all officers chosen at that election to an office the regular term of which in two years, and also all election officers and assessors chosen at that election, shall serve until the first Monday of December in the year one thousand nine hundred and eleven. All officers chosen at that election to offices the term of which is now four years, or is made four years by the operation of these amendments or this schedule, shall serve until the first Monday of December in the year one thousand nine hundred and thirteen. All justices of the peace, magistrates, and aldermen, chosen at that election, shall serve until the first Monday of December in the year one thousand nine hundred and fifteen. After the year nineteen hundred and ten, and until the Legislature shall otherwise provide, all terms of city, ward, borough, township, and election division officers shall begin on the first Monday of December in an odd-numbered year.

All city, ward, borough, and township officers holding office at the date of the approval of these amendments, whose terms of office may end in the year one thousand nine hundred and eleven, shall continue to hold their offices until the first Monday of December of that year.

All judges of the courts for the several judicial districts, and also all county officers, holding office at the date of the approval of these amendments, whose terms of office may end in the year one thousand nine hundred and eleven, shall continue to hold their offices until the first Monday of January, one thousand nine hundred and twelve.

A true copy of the Joint Resolution.

ROBERT McAFEE,
Secretary of the Commonwealth,

NEWS IN PARAGRAPHS.

Short Items of a Local and Personal Flavor.

Miss Barbara Leger and Miss Maggie Casey of Pittsburg, are visiting Mrs. Nora Barrett at Marshview.

The Inter-State fair grounds at Athens are lighted by electricity, and the atractions are in full swing day and night.

Miss Emilie Piollet of Wysox leaves this afternoon for Spokane, Wash., where she will visit her brother, Victor Piollet.

The condition of G. Floyd Childs of Sheshequin who was injured last Thursday by being struck by a pitched ball at Wyalusing, is now improving rapidly.

While spearing in the river at a point above the Wysox bridge, Monday night, William Williams of Wysox, captured a carp which measured 30 inches in length and weighed 12½.

Lehigh Valley stock is still shooting upward. Monday on the Philadelphia stock market the price soared from 105 1-4 to 109 7-8, breaking its former high record price, made last Saturday by $5⅝ or 11¾ per cent.

Harry Carter, superintendent of the Towanda Knitting mill, while fishing at the foot of Park street Tuesday afternoon caught a pickerel measuring 23 and one fourth inches in length and weighing exactly four pounds.

Athletes should bear in mind that in order to take part in the foot races at the Bradford county fair next week, they must send names to Review on or before Saturday of this week. Many names have already been filed.

Four of the young men who picked up hams which were spilled from the wrecked freight cars at Ulster Sunday evening, were in Sayre yesterday and before Justice Carey settled for $12.87, $10 of which was for ham and $2.87 for costs.

Waverly Race Horse Injured.

Says the Waverly Free Press: "Roly Poly, the famous running mare owned by Dr. C. F. Griswold and H. C. Griswold, of Waverly was badly hurt at Olean last week. While the horses were lined up and plunging at the barrier another horse kicked the Griswold mare on the hind leg, cutting her badly. She started, however, and won the dash, but it was then found her hurt was serious. At the races at Syracuse, Wednesday of this week, she was started in a field of horses which she has been beating easily, but went lame from her injury and it was necessary to pull her and she only finished fourth. As to how permanent a nature her injury will prove to be, it is impossible to tell at present, but it is feared it is serious. This mare, a Virginia thoroughbred, has had a most remarkable record on the turf. She will be eight years old next Spring and the Griswold Brothers have owned her for five years, racing her five seasons, and she had been raced one season before they got her. In all her races for the five years, from Canada to the Gulf of Mexico, never, until this week, has she failed to get less than second money. Needless to say she has been very profitable to her owners."

Uncle Sam's Human Hinges.

In other cities the doors of public buildings are set on springs and slap to and fro as the visitor wills, but in Washington it appears necessary to have a special man to open and close the doors—human hinges, as it were—no undignified banging of doors there. This custom has died out in other places, but there are many veteran negroes in Washington who have seen years of such service for the government. They have a stately way of performing this office, which gives a door an official and unofficial swing.—Joe Mitchell Chapple in National Magazine.

Eskimo Graves of Stones.

To the Eskimo mind everything animate or inanimate possesses a soul. Thus in their graves we found they invariably placed every cherished possession, that their spirits might serve the departed spirit in the same capacities in the life to come. There is little room for burial beneath the scanty earth in Labrador, even if the frost would permit. So the grave consists of upright stones, with long flat ones laid across. These not only serve to keep the wolves from the body, but wide chinks also afford the spirits free passage in and out.—Wilfred T. Grenfell in Century.

Just One Sentence.

"They say that Stevenson frequently worked a whole afternoon on a single line."

"That's nothing. I know a man who has been working the last six years on one sentence."—Boston Transcript.

MOUNTAIN LAKE.

Miss Helen Lampman accompanied by her cousin, Miss Dollie Lampman of Smithfield, spent several days in Laquin last week.

D. P. Haight is recovering from his recent illness.

Rev. W. P. Miler of North Towanda, conducted quarterly meeting services here on Sunday afternoon.

Miss Ada Allen spent last week with hes sister, Mrs. Grove Lane, at Luthers Mills.

J. W. Nichols and daughter, Miss Linnie, visited Mr. and Mrs. Worden Davis near Granville on Monday.

Safe and Sure.

Among the medicines that are recommended and endorsed by physicians and nurses is Kemp's Balsam the best cough cure. For many years it has been regarded by doctors as the medicine most likely to cure coughs, and it has a strong hold on the esteem of all well-informed people. When Kemp's Balsam cannot cure a cough we shall be at a loss to know what will. At druggists, and dealers', 25c.

VERDICT FOR DEFENDANT IN DORRANCE—JENNINGS CASE.

Jury Required But Thirty Minutes to Decide $115,000 Case.

It took twelve good and true men of Bradford county just 30 minutes to decide in favor of the defendant in the case of J. Ford Dorrance vs. Cortez H. Jennings, in an action for $115,000, which was tried in common pleas court last week, coming to a close Saturday afternoon.

The case involved one of the largest sums and was one of the most hotly contested of any litigation in the Bradford county courts in years. Mr. Dorrance, the plaintiff, alleged that he agreed to sell Jenningston, W. Va., a lumber town owned by Cortez H. Jennings, for the sum of $1,500,000, and as a commission Mr. Jennings was to pay him $100,000.

Mr. Dorrance, it was alleged, produced a purchaser in the form of a corporation, and the articles of agreement were drawn up, and were acceptable to both parties. One clause of the agreement was that the purchasers should pay down in cash at the time of the transfer of the title the sum of a half million dollars.

When the time for the transfer came the corporation did not have the half million dollars for the cash payment and the deal fell through, and Mr. Jennings refused to pay the $100,000 commission to Mr. Dorrance, who brought suit for the principal and interest, in all amounting to $115,000. Mr. Dorrance claimed that he had performed his part of the agreement with Mr. Jennings and that he was entitled to the commission agreed upon. His claim was that the falling through of the deal, after all the terms had once been agreed upon, was a circumstance over which he had no control, and was through no fault of his.

The defense was that J. Ford Dorrance, J. Walter Douglas and R. F. Whitmer organized the corporation which was to take over the Jennings property, and that Mr. Dorrance being a party to the deal which fell through, was not entitled to the commission.

The case was commenced Monday morning of last week, and continued until 2:45 Saturday afternoon, when it was given to the jury, which deliberated 30 minutes before returning a verdict in favor of Mr. Jennings, the defendant.

The attorneys in the case were Judge Frank Wheaton of Wilkes-Barre, Lilley & Wilson and Rodney A. Mercur of Towanda, for Mr. Jennings; William Maxwell of Towanda, Congressman J. T. Lenahan of Wilkes-Barre, and Walter Douglas of Philadelphia, for Mr. Dorrance.

It is expected the case will be carried to the higher courts.

HAD A GOOD TIME.

Portions of the 50th and 58th Regiments Met at New Albany.

A reunion of portions of the 50th and 58th regiments was held at New Albany on September 17. The village was at its best and entertained the boys most royally. On arriving on the morning train, the drum corps composed of Reed Dunfee, Aaron Eddy, F. M. Vought as fifer, escorted the boys to the G. A. R. hall where a pleasant time was spent in old time recollections and the business disposed of. James Hunt was elected president of the 50th for the coming year and James Wilcox vice-president; Isaac Babcock, secretary and treasurer.

At 12 o'clock a feast was prepared by the ladies of the Baptist church and the boys were made happy. At 2 o'clock the comrades met at the hall and led by 100 school children and teachers were escorted by the band to the church which was filled with ladies, citizens and visiting comrades. On being seated Joseph Hested was introduced and gave a most hearty welcome which was responded to by Comrade Rider in his usual easy way. H. G. Blair of Towanda gave the opening prayer. The male quartette then gave an appropriate selection of songs. Paul E. Maynard, Esq., of Athens who was next introduced, gave a most entertaining address which was received by the boys with great satisfaction. Comrade Blair entertained the comrades by his remarks on the battle of Gettysburg and sang a song entitled "Drinking from the same canteen" which was received with applause. Remarks were made by Comrade Hewett of New Albany, and Sweet of Hollenback, followed by adjournment.

A Culinary Tragedy.

"What's the matter, dear?" asked Mr. Justwed as he came into the house and found his wife crying as if her heart would break.

"I am so discouraged," she sobbed.

"What has bothered my little wife?"

"I worked all the afternoon making custards, because I knew you were so fond of them, and—and"— Here she began weeping hysterically again.

"And what, darling?"

"And they turned out to be sponge cakes."

The Cleverest.

Willy—You see, it was this way. They were all three so dead in love with her and all so eligible that to settle the matter she agreed to marry the one who should guess the nearest to her age. Arthur—And did she? Willy—I don't know. I know that she married the one who guessed the lowest.

The Health of Your Horse

will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time. The proper remedy for all strains, sprains or colic is Perry Davis' Painkiller. The proper time to use it is when the trouble first shows itself. Be prompt and you will not only save the horse suffering, but you'll spare yourself trouble and expense—maybe save a long time waiting. You ought to have a bottle ready. The new size bottle costs 35 cents; one larger, 50 cents. Be sure your druggist gives you Perry Davis'.

LOCAL OPTIONISTS READY FOR GREAT TEMPERANCE FIGHT

Superintendent Nicholson is Strengthening His Battle Lines.

Superintendent Nicholson, of the Pennsylvania Anti-Saloon League, has completed plans for strengthening the League, and declares that with the beginning of October the Pennsylvania League will be one of the strongest in the whole country. Dr. C. W. Carroll, now of The Pittsburg District, will come to Harrisburg to be at the head of the agitational department as assistant superintendent, while The Keystone Citizen will be issued as a weekly after that date, with Rev. H. M. Chalfant, of Swissvale, Pa., as editor. Mr. Nicholson will devote his time to superintending the movement, making a specialty of organizing counties for the legislative local option fight.

"Rev. F. A. Gaupp, of the DuBois district, having resigned, that district has been broken up and two new districts have been created, one with headquarters at Williamsport, with Rev. W. H. Chase as district superintendent; the other at Altoona, the district superintendent of which is to be announced October 1. To succeed Dr. Carroll at Pittsburg Mr. Nicholson has selected Rev. Willis K. Crosby, pastor of the Methodist Episcopal church at Clarion, Pa., who in local and county work has shown the qualities of an efficient League worker.

Former Governor Hanly, of Indiana, will make a tour of the State in the interest of the League and the local option campaign, which is already under way.

RECORD BREAKING CROWDS WILL ATTEND TOWANDA FAIR.

Annual Exhibition Starts Next Tuesday, September 28.

Record breaking crowds are expected at the great Towanda fair next week, commencing Tuesday morning and ending Friday evening, for it will be bigger, better and more attractive than ever before, with something to see and do every minute. The increased purses promise the fastest and best horse races ever witnessed on any track in Northern Pennsylvania. Good ball games and first class band music with free attractions in front of the grand stand every day. The big added attraction will be the athletic events, which will include a Marathon race, 100 yard dash, 220 yard dash, etc. Liberal cash prizes are offered for these events and there will be a large number of starters in each evnt.

Th big scream will be in finding a number corresponding to your number. A cash prize follows the discovery. It costs you nothing to get tagged at the big fair this year, but you will have fun finding the person wearing a corresponding number.

You certainly can't afford to miss the old reliable Towanda Fair this year.

Excursion rates and special trains on all railroads leading to Towanda.

FAST FREIGHT TRAIN WRECKED NEAR ULSTER.

TJ No. 2 Breaks in Two Piling Up Ten Meat Cars.

A bad wreck occurred on the Lehigh at point near the Borden creamery at Ulster about 7 o'clock Sunday evening when fast freight train TJ No. 2 broke in two and ten cars loaded with meat and lard jumped the track and piled up. Fortunately no one was injured.

The train which was one of the fastest on the line was bound from the Tift farm near Buffalo to Jersey City, bearing meat and lard. It was running at a high rate of speed when a journal broke, throwing one of the cars from the track, causing a break in the train. Before the train came to a standstill, ten of the heavily laden cars had left the track, and were piled in a heap on the westbound track. Some of the cars leaped clear across the westbound track and landed in a eld.

The westbound tracks, as well as the eastbound, were torn up and all traffic was blocked for several hours. The Sayre wrecking crew was hurried to the scene and cleared away the wreckage and repaired the tracks.

The Black Diamond express had passed the point of the wreck about three minutes before the cars left the track, thus escaping being mixed in the wreck by a narrow margin.

LUTHERS MILLS.

The meetings held at the church last week were greatly enjoyed. All greeted Rev. Transue of Redding Center, N. Y., who was pastor here 34 years ago, and although over 70 years of age, can preach some very helpful sermons. The dedicatory services were held Friday evening and the church was well filled. After the sermon by Rev. Transue District Superintendent Sanford took charge; $200.27 was raised to carry on the work of putting in a furnace and painting the church. Rev. Skellek and Rev. Hess of East Troy, were present Friday afternoon and evening.

Mrs. W. Lewis of North Dakota, has returned to her home. Mrs. G. S. Haight accompanied her to Athens where she will spend a few days.

Oscar Morgan of Burlington, is spending a week with his parents.

Mrs. Mary Gustin of Burlington, spent a few days last week at Charles Carman's and attended the meeting at the church.

F. L. Leonard and family spent Sunday at Monroeton; also Merton Smith and wife.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the

ROAD OILING DEVICE.

Portable Machine to Mix and Spread at Same Time.

WILL INTEREST ENGINEERS.

Process Is Cheap, and It Is Expected to Revolutionize Work on Country Roads—Cost For Treating Highways Will Vary.

Oiling of city and country roads is rapidly becoming a recognized necessity throughout the United States, and St. Louis and St. Louis county are, as usual, in the lead. City streets have been treated for some time past, and residents of St. Louis county are planning to oil the main traveled roads.

Street Commissioner Travilla fathered oiling of streets in St. Louis and has made a careful study of the proposition with a view to perfecting the work. After months of study of conditions in St. Louis and the equipment used in

OIL-ASPHALT TREATED ROAD.

other cities, particularly in Europe, he has evolved a portable oil-asphalt melting and fluxing plant that will revolutionize the work. The plant is the first of its kind in the world and will attract the attention of highway engineers throughout the United States. Its cost is less than $1,200, and the process to be used has been given a thorough test.

Street Commissioner Travilla in describing the new apparatus and the progress of road oiling said:

The oil-asphalt melting and fluxing portable plant is a new departure in machinery for road treatment. After two years' experience with light and heavy oils I became satisfied there was room for improvement by adding asphalt to heavy oil for road treatment, and the result of this investigation has brought about the construction of the portable plant.

There is no subject today which is being discussed more frequently than methods of improving our highways. The oiling of roads is making considerable progress in the United States with good effect, but much better results can be obtained by the application of a layer of hot oil-asphalt compound to the road surface. In this way the road absorbs the mixture and also forms a very solid coating and a strong binder for the particles of sand and the larger stone in the macadam road, which carries the load.

The dust which usually results from the wear of the road disappears, and at the same time the natural expense of keeping up the road is diminished, which more than compensates for the cost of the process. This comes from the great reduction of expense for sprinkling a road and scraping the mud as well as from the great durability of the roadbed.

The cost per square yard for treating the road by the new process will vary from 7 cents to 14 cents, depending on the amount of sand and asphalt used. The plant consists of a melting and agitation kettle, an air pressure for furnishing compressed air for agitating the oil-asphalt and for forcing it from the kettle to a sprinkling wagon; also a steam pump as an auxiliary for pumping heavy oil from the tank car to the melting kettle and a steam boiler for furnishing steam for the operation of the air pressure and steam pump.

The kettle has a capacity of 1,350 gallons and is divided tranversely into two equal parts, one compartment being intended for melting and mixing the oil-asphalt, the other for agitating the oil-asphalt.

The method of operation is: The oil-asphalt compound is put in the kettle and the mixture melted and agitated from the low pressure reservoir to the required temperature and consistency, when it is drawn into the closed compartment and then delivered to the sprinkling wagon by means of an air pressure. In the meantime another batch is being heated and mixed in the open compartment. One hour's time is required for heating and agitating 1,350 gallons.—St. Louis Republic.

Good Road Notes.

Good roads will make the vehicles last longer.

Good drainage is absolutely necessary in building a good road.

Every man who owns an automobile, a horse or a bicycle is interested in good roads.

The highway and roadside are usually a fair index of the people living in the vicinity.

Crushed.

"Really, Louise, this bill is outrageous. You must not try to dress like the millionaires' wives."

"My dear Ned, control yourself. I am only trying to appear as well dressed as the shopgirls."

Absence of occupation is not rest. A mind quite vacant is a mind distressed.—Cowper.

BACK FROM EUROPE WILL LOCATE IN SAYRE.

Dr. A. H. Murray Will Commence Practice on Sept. 20 in Wheelock Building as Specialist in Diseases of Eye, Ear, Nose and Throat.

Having just returned from Europe where he studied surgery relative to the human eye, ear, nose and throat, the Dr. A. H. Murray is preparing to open an office in the Wheelock building where he will treat diseases of the eye, ear, nose and throat.

Dr. Murray is a son of the late John R. Murray, for many years a justice of peace of Sayre. He was graduated from the Sayre High school in the class of 1894 and from the Medico-Chi at Philadelphia with the degree of M. D. in 1897. For a time he was in general practice and then he decided to specialize on diseases of the eye, ear, nose and throat. He studied for a time at the Polyclinic, a postgraduate school in Philadelphia Then he opened an office in Sayre and for seven years he was a successful specialist. Finally he decided to learn more regarding the organs on which he was specializing and, in accordance with the decision he left Sayre for Philadelphia. For a year he was assistant surgeon in the Philadelphia Eye, Ear, Nose and Throat Institute and then he was with Prof. L. Webster Fox on the staff of the Medico-Chirurgical hospital and the Willis Eye hospital in Philadelphia. Dr. Fox is considered one fo the best if not the best operators on the human eye in this country and while working with him Dr. Murray learned much that will be of value to him in his practice here. Leaving Philadelphia he went to Vienna where for four months he studied under Prof. Fuchs, acknowledged as the world's greatest eye expert. From Vienna he went to London where he studied for a time in the Royal Ophthalmic hospital. Then he returned to America and finally decided to open an office in the town where the greater portion of his life had been spent. He has leased a suite of three rooms on the second floor of the Wheelock building, being the rooms formerly occupied by the Moyanho club. He will fit the rooms for occupancy and will be ready to receive those who desire either medical or surgical treatment to the eye, ear, nose or throat, on Sept. 20. Dr. Murray is eminently fitted as a specialist in diseases of these organs and his success is assured.—Sayre Times-Record.

DRIVING A NAIL.

More to It Than Simply Hammering It Into the Wood.

One who thinks that the driving of a nail consists simply in getting the whole length of it out of sight has little conception of the real nature of the operation, says the Scientific American. A nail driven by an expert will often hold several times as much as one ill driven, while, too, it is often made to draw the parts into place. If you have ever watched a mechanic driving nails you have doubtless noted that he rarely drives one at right angles with the face of the work. There is a reason for this. Suppose that he is nailing the "sheeting" on the frame of a building and desires to draw the board down tightly against the one below it. He points the nail downward, and a few well considered blows at the last produce the desired effect. If the board is bent edgewise, so that much force is required, probably he will start the nail in the upper edge, pointing very sharply downward. Again, two nails driven in a board at different angles will hold it in place much more firmly than the same nails would if they were driven at right angles with the face of the board.

Did you ever notice that in driving a nail in very hard wood one man will do it successfully, while another succeeds only in doubling the nail up before the point has fairly entered the wood? The difference lies in the fact that the expert strikes the nail fairly and not too hard, "coaxing" it in, while the other strikes too hard and with indirection. It may be properly mentioned right here that in driving a nail into very hard wood it is usually profitable to dip the end in oil or grease. This will not sensibly interfere with the holding qualities of the nail, while it will be found to very materially facilitate its driving.

During the past 56 years it has helped many back to health and will do so in your case, too. It is for Sick Headache, Indigestion, Dyspepsia, Costiveness, Biliousness, Nervousness and Malaria.

GROCER SULLIVAN HAS THRILLING BATTLE WITH RAT

Monster River Rodent Boldly Enters Store and Gives Battle.

Grocer Frank Sullivan with a store near the corner of Main and Washington street, was quite painfully injured in a battle with a musk, or river rat Saturday night. His experience with the rodent was thrilling, indeed.

About 10 o'clock Saturday evening a customer saw a huge rat boldly walk in the front door, and called Mr. Sullivan's attention to it. Plans were made at once for killing the rodent, and Mr. Sullivan got in a positing for an attack. The rat displayed little if any fear, and Mr. Sullivan had no trouble in stepping on the animal, which squirmed and wriggled, finally getting in a position where it could attack.

The rodent sank it's teeth in Mr. Sullivan's right leg, making a painful wound. Mr. Sullivan then placed his whole weight upon the animal and succeeded in crushing out it's life.

The carcass was laid on the sidewalk in front of the store while Mr. Sullivan went for medical attention for his injured leg. When he returned the trophy of his exciting battle was gone and some one was ahead a fine large pelt.

Musk rats have never been known to be so bold in Towanda before. It is presumed that this rodent being driven to desperation by hunger, sallied forth and was attracted by the smell of eatables in the Sullivan grocery, meeting death in the search for a meal.

New Kind of Setter.

Little Oscar, aged five, had a dog which was almost always to be found behind the stove in the kitchen. Oscar once visited at a house where there were two fine dogs. The master of the house told him that they were Irish setters. The little fellow, who was very fond of his pet, answered quickly, "Mine is a kitchen setter."—Delineator

Better Than Ever.

Mary Backstoop—Did he tell you life with him would be one grand, sweet song? Maudie Sidestreet—No. He said it would be one grand, beveled, sweet toned, silver coated, indestructible phonograph record.—Puck.

Getting On.

Father—And now are you getting on at school, Johnny? Johnny—Oh, I have learned to say "Thank you" and "If you please" in French. Father—That's more than you ever learned in English.

Not Quite a Sponge.

Percy—Skitts is a sponge—a perfect sponge.

"Oh, no! When a sponge absorbs anything, by squeezing it you can get it again."—Detroit Free Press.

Uncle Sam's Moving Pictures.

Moving pictures for the farmers is the latest development of the exploitation of the work of the Department of Agriculture. The success which has attended the extension of the nickeldeon business throughout the country has induced Uncle Sam to embark in the enterprise on his own account. A score or more of films have been sent to Minneapolis State Fair this week. The pictures show plowing, sowing, cultivating and harvesting of the cereal crops, the manufacture of butter and cheese, fruit culture and other branches of modern agriculture. If successful in Minneapolis the exhibition will be repeated at other state fairs throughout the country under the auspices of the department. Assistant Secretary of Agriculture, Willet M. Hayes will supertend the initial exhibition and will have with him several assistants from the department, who will operate the machine and explain the pictures.
